[FRL-8169-1]

Connecticut Sanitation Device Standard; Notice of Determination

This Notice of Determination is for all Connecticut waters between Eastern Point in Groton, to Hoadley Point in

Guilford, and the navigable reaches of the Hammonasset River, Menunketesuck River, Niantic River and the Thames River that drain into Long Island Sound, and the Connecticut River within state boundaries.

On September 16, 2005, notice was published that the State of Connecticut had petitioned the Regional Administrator, Environmental Protection Agency, to determine that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the Connecticut waters from Eastern Point, Groton, due south to the border between Connecticut and New York, then west following the state border to a point on that line due south of Hoadley Point, Guilford, then due north to Hoadley Point. The area also includes the navigable reaches of the Hammonasset River, Menunketesuck River, Niantic River and the Thames

River that drain into Long Island Sound, and the Connecticut River within state boundaries.

The petition was filed pursuant to Section 312 (f)(3) of Public Law 92–500, as amended by Public Laws 95–217 and 100–4, for the purpose of declaring these waters a “No Discharge Area” (NDA).

Section 312 (f)(3) states: After the effective date of the initial standards and regulations promulgated under this section, if any State determines that the protection and enhancement of the quality of some or all of the waters within such States require greater environmental protection, such State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters, except that no such prohibition shall apply until the Administrator determines that adequate facilities for the safe and sanitary removal and treatment of

sewage from all vessels are reasonably available for such water to which such prohibition would apply.

The information submitted to me by the State of Connecticut certifies that there are 36 pumpout facilities, 29 shore-based facilities, four portable facilities, three pumpout boats and ten dump stations located within the proposed area. A list of the facilities, with phone numbers, locations, and hours of operation is appended at the end of this determination.

Based on the examination of the petition and its supporting documentation and information from site visits by EPA New England staff, I have determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the area covered under this determination. The area includes:

Waterbody/general area	Latitude	Longitude
Hoadley Point in Guilford	41°15'22.88" N	72°44'09.73" W.
Due South from Hoadley to the Boundary between CT and NY	41°07'51.17" N	72°44'09.73" W.
Easterly boundary between CT and NY to a point due South of Eastern Point in Groton	41°15'54.55" N	72°04'31.09" W.
Due North to Easter Point in Groton	41°19'08.94" N	72°04'31.09" W.
CT and MA state boundary of the CT River	42°01'54.69" N	72°36' 1.02" W.
Navigable Rivers: Hammonasset, Menunketesuck, Niantic and the Thames.		

The area also includes the navigable reaches the Hammonasset River, Menunketesuck River, Niantic River and the Thames River that drain into Long Island Sound, and the Connecticut River within state boundaries.

This determination is made pursuant to Section 312(f)(3) of Public Law 92–500, as amended by Public Laws 95–217 and 100–4.

EPA has prepared a response to the eleven comments received during the

45-day comment period, which it may be requested from EPA by writing to: Ann Rodney, U.S. EPA New England, 1 Congress Street, Suite 1100, COP, Boston, MA 02114–2023.

Public Notice 87

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Export-Import Bank of the U.S.

ACTION: Notice and request for comments.

SUMMARY: The Export-Import Bank, as a part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995. Our customers will be able to submit this form on paper or electronically. The form has been updated in the following ways:

- The format has been changed in order to standardize its outline with those used for medium-term insurance and guarantees and exporter short-term single sale insurance.
- Information requested in order for the applicant to obtain special insurance coverages has been taken out of the body of the application and put in separate appendixes.
- Information about the end-user and agent is now requested.
- Legal certifications have been updated.
- The application also more explicitly states the financial information that is required to be submitted with the application.

DATES: Written comments should be received on or before June 12, 2006 to be assured of consideration.

ADDRESSES: Direct all comments to David Rostker, Office of Management and Budget, Office of Information and Regulatory Affairs, NEOB, Room 10202, Washington, DC 20503, (202) 395-5897.

SUPPLEMENTARY INFORMATION:

Title and Form Number: Application for Financial Institution Short-term Single-Buyer Insurance, EIB 92-41.

OMB Number: Presently part of OMB #3048-0009 collection. Going forward we would like this form to have its own OMB number.

Type of Review: Regular.

Need and Use: The information requested enables the financial

institution applicant to provide Ex-Im Bank with the information necessary to obtain legislatively required assurance of repayment and fulfills other statutory requirements.

Affected Public: The form affects entities involved in the export of U.S. goods and services.

Estimated Annual Respondents: 265.

Estimated Time Per Respondent: 1 hour.

Estimated Annual Burden: 265 hours.

Frequency of Reporting or Use: As needed, each time a financial institution seeks short-term insurance for an export sale to a single buyer.

Dated: May 8, 2006.
