FOR FURTHER INFORMATION CONTACT:

Ellen Brown may be reached by email at DataClearance@FERC.gov, or by telephone at (202) 502-8663.

SUPPLEMENTARY INFORMATION:

Type of Request: Three-year extension of the information collection

requirements with no changes to the current reporting requirements.

Title: Preservation of Records for Public Utilities and Licensees, Natural Gas Companies, and Oil Pipeline Companies.

OMB Control No.: 1902-0098.

Abstract: The Commission collects the information to carry out its responsibilities described in sections 301, 304 and 309 of the Federal Power Act (FPA),¹ sections 8, 10 and 16 of the Natural Gas Act (NGA),² and in the Interstate Commerce Act (ICA).³

The regulations for preservation of records at 18 CFR parts 125, 225, and 356 establish retention periods and other requirements for applicable records. These requirements apply to the public utilities, licensees, natural gas companies, and oil pipeline companies that are subject to the Commission's jurisdiction. Regulated entities use these records as the basis for required rate filings and reports to the Commission. The Commission's audit staff will use the records during

compliance reviews, and the Commission's enforcement staff will use the information during investigations. In addition, the Commission's staff may use the records for special analyses on subjects such as jurisdictional entities' responses to extreme weather events.

On January 8, 1999 the Commission issued AI99-2-000, an Accounting Issuance providing guidance on records storage media.⁴ More specifically, the Commission gave each jurisdictional company the flexibility to select its own storage media. The storage media selected must have a life expectancy equal to the applicable record period unless the quality of the data transferred from one media to another with no loss of data would exceed the record period.

Types of Respondents: Electric utilities, licensees, natural gas companies, and oil pipeline companies.

Estimate of Annual Burden: The Commission estimates the annual public reporting burden for the information collection as:

FERC-555: PRESERVATION OF RECORDS FOR PUBLIC UTILITIES AND LICENSEES, NATURAL GAS COMPANIES, AND OIL PIPELINE COMPANIES

Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden hrs. & cost per response ⁵	Total annual burden hours & total annual cost
(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)
509	1	509	5,218 hrs.; \$453,966	2,655,962 hrs.; \$231,068,694

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: July 18, 2022.

Debbie-Anne A. Reese,

Deputy Secretary.

[Docket No. CP22-488-000]

WBI Energy Transmission, Inc.; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on July 8, 2022 WBI Energy Transmission, Inc. (WBI Energy) filed a prior notice request for authorization, in accordance with 18 CFR Sections 157.205, 157.208, and 157.210 of the Federal Energy Regulatory Commission's (Commission) regulations and WBI Energy's blanket certificate issued in Docket Nos. CP82-487-000 for authorization to construct and operate natural gas pipeline facilities in Phillips and Valley Counties, Montana and abandon in place 1,965 feet of natural gas mainline.

The estimated cost of the project will be about \$10 million.

Specifically, WBI Energy proposes to construct and operate approximately 17.2 miles of 4-inch diameter natural gas mainline facilities to connect two sections of WBI Energy's existing Line Section 8 that are not physically connected and abandon in place 1,965 feet of 6-inch diameter natural gas mainline, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<https://www.ferc.gov>) using the "eLibrary" link.
