Revised Notice of Application Accepted for Filing and Soliciting Motions to Intervene, Protests, and Comments

August 15, 2001.

Take notice that the following hydroelectric application has been filed

with the Commission and is available for public inspection:

a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 11873-000.

c. *Date filed:* January 23, 2001.

d. *Applicant:* Symbiotics, LLC.

e. *Name of Project:* Star Falls Project.

f. *Location:* On the Snake River, in Twin Falls and Jerome Counties, Idaho. Would occupy federal land managed by the Bureau of Land Management.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)-825(r).

h. *Applicant Contact:* Mr. Brent L. Smith, President, Northwest Power Services, Inc., P. O. Box 535, Rigby, ID 83442, (208) 745-8630.

i. *FERC Contact:* Robert Bell, (202) 219-2806.

j. *Deadline for filing motions to intervene, protests and comments:* 30 days from the issuance date of this notice.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426.

Please include the project number (P-11873-000) on any comments, protests, or motions filed.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Project:* The proposed project would consist of: (1) A proposed 400-foot-long, 20-foot-high diversion dam, (2) a proposed impoundment having a surface area of 14 acres with negligible storage, (3) two proposed 1,300-foot-long, 24-foot-diameter steel penstocks, (4) a proposed powerhouse containing two generating units having a total installed capacity of 25 MW, (5) a proposed 138 kV transmission line, and (6) appurtenant facilities. The project would have an annual generation of 104 GWh that would be sold to a local utility.

On April 3, 2001, the Commission issued a public notice with a comment period ending on June 4, 2001. The notice contained an inaccurate description of the project in that the project dam was described as existing instead of proposed.

All comments filed to date will be considered. If you wish to revise your comments in view of this corrected
