

skiing and mountaineering expedition in Queen Maud Land. The expedition will depart Cape Town, South Africa and fly to Novolazerevskaya Station, then onto to Wolthat Mountains in Queen Maud Land to set up base camp.

Designated pollutants that would be associated with the expedition are white gas for cooking, kitchen waste, solid waste, trash, batteries, and human waste (urine and human solid waste). All waste will be stored in plastic barrels and returned to Cape Town for disposal. If camping fuel is spilled, the contaminated snow and ice will be contained in waste barrels and brought to Cape Town for disposal.

The permit applicant: Mike Libeck, Salt Lake City, Utah, Permit application No. 2013 WM-004.

Nadene G. Kennedy,
Permit Officer.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on the Medical Uses of Isotopes: Call for Nominations

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Call for nominations.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is advertising for nominations for the positions of health care administrator and nuclear cardiologist on the Advisory Committee on the Medical Uses of Isotopes (ACMUI). Nominees for the position of the health care administrator should have professional or personal experience with or knowledge about health care administration. Nominees for the position of the nuclear cardiologist should be a physician with professional or personal experience with or knowledge about nuclear cardiology.

DATES: Nominations are due on or before December 14, 2012.

Nomination Process: Submit an electronic copy of a resume or curriculum vitae, along with a cover letter, to Ms. Sophie Holiday, sophie.holiday@nrc.gov.

The cover letter for the health care administrator should describe the nominee's current involvement with health care administration and express the nominee's interest in the position. Please ensure that the resume or curriculum vitae includes the following information, if applicable: Education; certification; professional association membership and committee membership activities; and number of years, recentness, and type of setting for health care administration.

The cover letter for the nuclear cardiologist should describe the nominee's current involvement with nuclear cardiology and express the nominee's interest in the position.

Please ensure that the resume or curriculum vitae includes the following information, as applicable: Education; certification; professional association membership and committee membership activities; and number of years, recentness, and type of setting for nuclear cardiology.

FOR FURTHER INFORMATION CONTACT: Ms. Sophie Holiday, U.S. Nuclear

Regulatory Commission, Office of Federal and State Materials and Environmental Management Programs; (301) 415-7865; sophie.holiday@nrc.gov.

SUPPLEMENTARY INFORMATION: The health care administrator and nuclear cardiologist provide advice to NRC staff on issues associated with the regulation of medical applications of byproduct material. The nominee for the health care administrator position is appointed based on his or her professional and personal experience with and/or knowledge about health care administration, involvement and/or leadership with health care organizations, and related experience obtained in letters or during the selection process. The nominee for the nuclear cardiologist position is appointed based on his or her professional and personal experience with and/or knowledge about nuclear cardiology, involvement and/or leadership with nuclear cardiology organizations, and related experience obtained in letters or during the selection process. Nominees should have the demonstrated ability to establish effective work relationships with peers and implement successful approaches to problem solving and conflict resolution.

NRC is inviting nominations for the appointments of the health care administrator and nuclear cardiologist to the ACMUI. The term of the individual currently occupying the health care administrator position will end May 2013 and the term of the individual currently occupying the nuclear cardiologist position will end October 2013.

ACMUI members currently serve a four-year term and may be considered for reappointment to an additional term. The current membership is comprised of the following professionals: (a) Nuclear medicine physician; (b) nuclear cardiologist; (c) nuclear medicine physicist; (d) therapy medical physicist; (e) radiation safety officer; (f) nuclear pharmacist; (g) two radiation oncologists; (h) patients' rights advocate; (i) Food and Drug Administration representative; (j) Agreement State representative; (k) health care administrator; and (l) diagnostic radiologist. For additional information about membership on the ACMUI, visit the ACMUI Membership Web page, <http://www.nrc.gov/about-nrc/regulatory/advisory/acmui/membership.html>.

Nominees must be U.S. citizens and be able to devote approximately 160 hours per year to Committee business.
