

technical review/approval process. Entities that seek inclusion in the plan to obtain future licenses are considered third party respondents. *Section 90.1211* authorizes the fifty-five 700 MHz regional planning committees to develop and submit on a voluntary basis a plan on guidelines for coordination procedures to facilitate the shared use of the 4940–4990 MHz (4.9 GHz) band.

The Commission has stayed this requirement indefinitely. Applicants are granted a geographic area license for the entire fifty MHz of 4.9 GHz spectrum over a geographical area defined by the boundaries of their jurisdiction—city, county or state. Accordingly, licensees are required to coordinate their operations in the shared band to avoid interference, a common practice when joint operations are conducted.

Commission staff will use the information to assign licenses, determine regional spectrum requirements and to develop technical standards. The information will also be used to determine whether prospective licensees operate in compliance with the Commission's rules. Without such information, the Commission could not accommodate regional requirements or provide for the efficient use of the available frequencies. This information collection includes rules to govern the operation and licensing of the 700 MHz and 4.9 GHz bands rules and regulation to ensure that licensees continue to fulfill their statutory responsibilities in accordance with the Communications Act of 1934, as amended. Such information will continue to be used to verify that applicants are legally and technically qualified to hold licenses, and to determine compliance with Commission rules.

Title: Regulatory Fee True-Up, Waiver or Exemption.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, Not-for-profit institutions, State, local or Tribal governments.

Number of Respondents and Responses: 19,820 respondents and 19,920 responses.

Estimated Time per Response: 0.25 hours–1 hour.

Frequency of Response: On occasion reporting requirements; annual recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 158 and 159.

Total Annual Burden: 10,030 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Licensees or regulatees concerned about disclosure of sensitive information in any submissions to the Commission may request confidential treatment pursuant to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60-day comment period in order to obtain the full three-year clearance from them.

The Commission provides broadcast licensees and commercial mobile radio service (CMRS) licensees with a “true-up” opportunity to update or otherwise correct their assessed fee amounts well before the actual due date for payment of regulatory fees. Providing a “true-up” opportunity is necessary because the data sources that are used to generate the fee assessments are subject to change at time of transfer or assignment of the license. The “true-up” is also an opportunity for regulatees to correct inaccuracies.

Per 47 CFR 1.1119 and 1.1166, the FCC may, upon a properly submitted written request, waive or defer collection of an application fee or waive, reduce, or defer payment of a regulatory fee in a specific instance for good cause shown where such action would promote the public interest. When submitting the request, no specific form is required.

FCC requires that when licensees or regulates request exemption from regulatory fees based on their non-profit status, they must file a one-time documentation sufficient to establish their non-profit status. The documentation may take the form of an IRS Determination Letter, a state charter indicating non-profit status, proof of church affiliation indicating tax exempt status, etc.
