There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 21-61

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) Sensitivity of Technology: 1. The MH-60R Multi-Mission Helicopter is employed primarily for anti-submarine and anti-surface warfare missions. The MH-60R carries several sensors and data links to enhance its ability to work in a network-centric battle group and as an extension of its home ship/main operating base. The mission systems consist of the following sensors and subsystems: an acoustics system consisting of a dipping sonar, sonobuoys, and acoustics processor; Multi-Mode Radar (MMR) with integrated Identification Friend or Foe (IFF) interrogator; Radios with COMSEC; Electronic Support Measures (ESM); Integrated Self-Defense (ISD); and Multi-Spectral Targeting System (MTS).

a. GPS/PPS/SAASM—Global
Positioning System provides a spacebased Global Navigation Satellite
System (GNSS) that has reliable location
and time information in all weather and
at all times and anywhere on or near the
earth when and where there is an
unobstructed line of sight to four or
more OPS satellites. Selective
Availability/Anti-Spoofing Module
(SAASM) is used by military OPS
receivers to allow decryption of

precision OPS coordinates. In addition, the OPS Antenna System (GAS–I) provides protection from enemy manipulation of the OPS system.

b. The AN/APS–153 multi-mode radar with an integrated IFF and Inverse Synthetic Aperture (ISAR) provides target surveillance/detection capability.

c. The AN/ALQ-210 (ESM) system identifies the location of an emitter. The ability of the system to identify specific emitters depends on the data provided.

- d. The AN/AAS-44C(V) Multispectral Targeting System (MTS) operates in day/night and adverse weather conditions. Imagery is provided by a Forward-Looking Infrared (FLIR) sensor, a color/monochrome day television (DTV) camera, and a Low-Light TV (LLTV).
- e. Ultra High Frequency/Very High Frequency (UHF/VHF) Radios (ARC 210) contain embedded sensitive encryption algorithms and keying material.
- 2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.
- 3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
- 4. A determination has been made that Australia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S.

foreign policy and national security objectives outlined in the Policy Justification.

5. All defense services listed in this transmittal have been authorized for release and export to the Government of Australia.

Transmittal No. 21–21

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

- (i) *Prospective Purchaser:* Kingdom of Saudi Arabia
  - (ii) Total Estimated Value:

TOTAL ...... \$500 million

Funding Source: National Funds (iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase: Major Defense Equipment (MDE): None
Non-MDE:

Mark

Continuation of the Maintenance Support Services (MSS) contract that supports the Royal Saudi Land Forces Aviation Command's (RSLFAC) fleet of AH–64D/E, UH– 60L, UH–60M, Schweizer 333, and Bell 406CS helicopters, as well as

the future fleet of CH-47F Chinook helicopters. The MSS contract services include management and installation of engineering change proposals and modification work orders; Repair and Return (R&R) management services and component repairs; aircraft simulator logistics, maintenance and technical support; training; maintenance management support for the RSLFAC headquarters staff; and other related elements of logistics and program support.

(iv) Military Department: Army (SR-B-ZDA)

(v) Prior Related Cases, if any: SR-B-UAF; SR-B-UGZ; SR-B-WAL; SR-B-ZAN; SR-B-ZAU

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: None

(viii) Date Report Delivered to Congress: September 16, 2021

\* As defined in Section 47(6) of the Arms Export Control Act.

# POLICY JUSTIFICATION

Saudi Arabia—Continuation of Maintenance Support Services (MSS)

The Kingdom of Saudi Arabia has requested to buy the continuation of the Maintenance Support Services (MSS) contract that supports the Royal Saudi Land Forces Aviation Command's (RSLFAC) fleet of AH-64D/E, UH-60L, UH-60M, Schweizer 333, and Bell 406CS helicopters, as well as the future fleet of CH-47F Chinook helicopters. The MSS contract services include management and installation of engineering change proposals and modification work orders; Repair and Return (R&R) management services and component repairs; aircraft simulator logistics, maintenance and technical support; training; maintenance management support for the RSLFAC headquarters staff; and other related elements of logistics and program support. The estimated total case value is \$500 million.

This proposed sale will support U.S. foreign policy and national security objectives by helping to improve the security of a friendly country that continues to be an important force for political stability and economic growth in the Middle East.

The proposed sale will improve Saudi Arabia's capability to meet current and future threats by the continuation of MSS services that will aid in the maintenance support of Saudi Arabia's rotary wing aircraft fleet, engines,

avionics, weapons, and missile components. Saudi Arabia will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The vendor is unknown at this time. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the vendor.

Implementation of this proposed sale will require the assignment of two (2) U.S. Government and three hundred fifty (350) U.S. contractor representatives to Saudi Arabia for a duration of two (2) years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

#### **DEPARTMENT OF EDUCATION**

Applications for New Awards; Asian **American and Native American Pacific Islander-Serving Institutions Program** 

**AGENCY:** Office of Postsecondary Education, Department of Education. **ACTION:** Notice.

**SUMMARY:** The Department of Education (Department) is issuing a notice inviting applications for new awards for fiscal year (FY) 2023 for the Asian American and Native American Pacific Islander-Serving Institutions (AANAPISI) Program, Assistance Listing Number 84.031L. This notice relates to the approved information collection under OMB control number 1840–0798.

Applications Available: March 30, 2023.

Deadline for Transmittal of Applications: May 30, 2023. Deadline for Intergovernmental Review: July 28, 2023.

ADDRESSES: For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on December 7, 2022 (87 FR 75045), and available at www.federalregister.gov/d/2022-26554. Please note that these Common Instructions supersede the version published on December 27, 2021.

#### SUPPLEMENTARY INFORMATION:

#### **Full Text of Announcement**

# I. Funding Opportunity Description

Purpose of Program: The AANAPISI Program provides grants to eligible institutions of higher education (IHEs) to enable them to improve and expand their capacity to serve Asian American and Native American Pacific Islander students. Institutions may use these grants to plan, develop, or implement activities that strengthen the institution's services leading to student success.

Background: While the population of Asian American and Pacific Islanders (AAPI) continues to grow on college campuses, research shows these students are least likely to seek help when it comes to both academic and social emotional supports. For example, research shows that two out of 10 AAPI college students experiencing a mental health issue receives treatment. To combat these problems, this competition includes two competitive preference priorities aimed at providing comprehensive student supports. Additionally, the competition includes a priority that seeks to encourage applicants to rethink how to promote student success by providing wraparound services, utilizing data systems that help target student needs, and coordinating and partnering with other organizations that address student success outcomes.

Priorities: This notice contains two competitive preference priorities. The priorities are from the Secretary's Supplemental Priorities and Definitions for Discretionary Grant Programs, published in the Federal Register on December 10, 2021 (86 FR 70612) (Supplemental Priorities).

Competitive Preference Priorities: For FY 2023 and any subsequent year in which we make awards from the list of unfunded applications from this competition, these priorities are competitive preference priorities. Under 34 CFR 75.105(c)(2)(i), we award up to an additional 5 points to an application for each priority, depending on how well the application meets the priorities. Applicants may respond to one or both
