[Docket No. CP99-580-002]

#### Southern LNG, Inc.; Notice of Availability of the Environmental Assessment for the Proposed Sendout Modification Project

April 17, 2001.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas facilities proposed by Southern LNG, Inc. (Southern LNG) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the proposed project which includes construction and operation of facilities at Southern LNG's existing liquefied natural gas (LNG) import terminal on Elba Island in Chatham County, Georgia. Southern LNG would increase the peak vaporization from 540 to 675 million cubic feet per day (MMCFD). This would allow Southern LNG to increase the throughput capacity of the LNG Terminal. LNG storage capacity would not change. Southern LNG proposes to:

- Replace the existing five 108 MMCFD Ryan Industries LNG submerged combustion vaporizers with five 135 MMCFD state-of-the-art submerged combustion water bath heaters; and
- Install an additional secondary LNG pump to supply additional LNG for the increased capacity of the vaporizers.

This filing is related to Docket No. CP99-582-003 (Section 284, Subpart G blanket certificate) where Southern LNG proposes to amend the initial rates approved in the Commission's March 16, 2000 *Order Issuing Certificate, Section 3 Authorization, and Denying Request for Rehearing*. No facilities are proposed for construction in this application.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that our comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426;

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding.
