

Normally, upon completion of an administrative review, the suspended entries are liquidated at the antidumping duty assessment rate for the review period.¹⁴ Therefore, for an administrative review to be conducted, there must be a reviewable, suspended entry that Commerce can instruct CBP to liquidate at the calculated antidumping duty assessment rate for the review period.¹⁵ As noted above, there were no entries of subject merchandise from Dillinger during the POR. Accordingly, in the absence of reviewable, suspended entries of subject merchandise during the POR, we are rescinding this administrative review for Dillinger in accordance with 19 CFR 351.213(d)(3).

Assessment

Commerce will instruct CBP to assess antidumping duties on all appropriate entries. Because Commerce is rescinding this review in its entirety, the entries to which this administrative review pertained shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of this rescission notice in the **Federal Register**.

Cash Deposit Requirements

As Commerce has proceeded to a final rescission of this administrative review, no cash deposit rates will change. Accordingly, the current cash deposit requirements shall remain in effect until further notice.

Administrative Protective Order

This notice serves as a final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of the APO materials or conversion to judicial protective order is hereby requested. Failure to comply with regulations and terms of an APO is a violation, which is subject to sanction.

Administrative Review; 2019–2020, 87 FR 27988 (May 10, 2022).

¹⁴ See 19 CFR 351.212(b)(2).

¹⁵ See 19 CFR 351.212(d)(3).

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.213(d)(4).

Dated: January 19, 2023.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

The Association of Universities for Research in Astronomy (AURA) Application(s) for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, as amended by Pub. L. 106–36; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be postmarked on or before February 13, 2023. Address written comments to Statutory Import Programs Staff, Room 3720, U.S. Department of Commerce, Washington, DC 20230. Please also email a copy of those comments to Dianne.Hanshaw@trade.gov.

Docket Number: 23–004.

Applicant: The Association of Universities for Research in Astronomy, (AURA), 950 N Cherry Avenue, Tucson, AZ 85719. Instrument: (4) Laser Launch Telescopes. Manufacturer: Officina Stellare, S.p.A., Italy. Intended Use: The instrument is intended to be used to study the creation of four artificial stars for the purpose of conducting Adaptive Optics scientific observations. Existing and upcoming next generation optical telescopes require highly reliable 589 nm high power lasers—to generate so-called Guide Star Lasers—for the implementation of adaptive optics facilities. The four Laser Launch Telescopes will be used to project these laser beacons to create a constellation of artificial laser guide star on top of the telescope. The experiments to be conducted: The four Laser Launch Telescopes used as an accessory to the Adaptive Optics system GMAO (currently in development) will propagate a constellation of artificial guide stars to measure the incoming

wavefront. The objectives pursued during the investigations will be used on selected nights for selected astronomical targets in hopes of attaining better scientific data. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 7, 2022.

Dated: January 19, 2023.

Gregory W. Campbell,

Director, Subsidies and Economic Analysis, Enforcement and Compliance.

National Oceanic and Atmospheric Administration

[RTID O648–XC685]

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 76 South Atlantic Black Sea Bass Assessment Webinar 5.

SUMMARY: The SEDAR 76 assessment of the South Atlantic stock of Black Sea Bass will consist of a series of assessment webinars. See

SUPPLEMENTARY INFORMATION:

DATES: The SEDAR 76 South Atlantic Black Sea Bass Assessment Webinar 5 is scheduled for Monday, February 13, 2023, from 10 a.m. until 2 p.m., Eastern. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Registration for the webinar is available by contacting the SEDAR coordinator via email at Kathleen.Howington@safmc.net.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT:

Kathleen Howington, SEDAR
Coordinator, 4055 Faber Place Drive,
Suite 201, North Charleston, SC 29405;
phone: (843) 571-4371; email:
Kathleen.Howington@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the SEDAR 76 South Atlantic Black Sea Bass Assessment Webinar 5 are as follows: Discuss any remaining data issues, model development, and model setup. Finalize data and assessment discussion.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically

identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see **ADDRESSES**) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 19, 2023.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[RTID 0648-XC712]

Marine Mammals; File No. 22156

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit amendment.

SUMMARY: Notice is hereby given that Douglas Nowacek, Ph.D., Nicholas School of the Environment, Duke University Marine Laboratory, 135 Duke Marine Lab Rd., Beaufort, NC 28516, has applied for an amendment to Scientific Research Permit No. 22156-02.

DATES: Written, telefaxed, or email comments must be received on or before February 23, 2023.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 22156 mod No. 9 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please

include File No. 22156 mod 9 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Amy Hapeman or Shasta McClenahan, Ph.D., (301)427-8401.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 22156-02 is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 22156, issued on May 8, 2020, (85 FR 35637), authorizes the permit holder to conduct research on 31 cetacean species in U.S. and international waters of the North Atlantic Ocean. Species include endangered blue (*Balaenoptera musculus*); fin (*B. physalus*); sei (*B. borealis*); and sperm (*Physeter macrocephalus*) whales. The purpose of the research is to study cetacean behavior, foraging ecology, body condition, health status, population structure, and use of and response to sounds. The permit authorizes surveys by vessel and an unmanned aircraft system (UAS) to approach, count, observe, photograph, remotely measure, and track cetaceans. During surveys, researchers may conduct acoustic playback trials, collect biological samples, and tag (suction-cup or dart) animals, with some species receiving two tags at a time. Non-target cetaceans in the vicinity of research may be unintentionally harassed. Biological samples collected in international waters may be imported into the United States and cell lines may be developed from tissue samples. Two minor amendments to the permit were issued to update biopsy sampling mitigation measures (Permit No. 22156-01; January 29, 2021) and expand the use of UAS to all authorized species (Permit No. 22156-02; May 23, 2022). The permit holder is requesting to amend the permit to allow dart tagging of juveniles and adults of 12 species currently authorized for other research methods: Atlantic spotted dolphins (*Stenella frontalis*); blue whales; bottlenose dolphins (*Tursiops truncatus*); clymene
