Abstract: A party (either the U.S. Department of Homeland Security (DHS) Immigration and Customs Enforcement (ICE) or the individual (Respondent/Applicant) who is the subject of the EOIR immigration proceeding) affected by a decision of an Immigration Judge may appeal that decision to the Board of Immigration Appeals (Board or BIA), provided the Board has jurisdiction pursuant to 8 CFR 1003.1. An appeal from an Immigration Judge’s decision is taken by completing the Form EOIR–26 and submitting it to the Board. *See* 8 CFR 1003.3, 1003.38. The form requests information necessary for the Board to

process an appeal of an Immigration Judge decision, such as the Respondent’s/Applicant’s name and alien registration number (A-number), the mailing addresses for parties and the attorney or representative of record, the basis for the appeal, and proof of service of the notice of appeal. EOIR is revising this form to implement several changes. Formatting and textual revisions were made throughout the form and instructions to improve organization, clarity, and readability. EOIR also updated references to online materials. Changes were made to clarify filing instructions for paper and electronic submissions. EOIR removed references and collection of information pertaining to the BIA Pro Bono Project, which currently is not an active agency program. An option was added to the form for an appellant to specify that he or she is filing an interlocutory appeal from an Immigration Judge decision. Finally, EOIR added a field to collect the email address for the appellant’s attorney or authorized representative.

SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Contractor Financial Management Reporting System is the basic financial medium for contractor reporting of estimated and incurred costs, providing essential data for projecting costs and hours to ensure that contractor performance is realistically planned and supported by dollar and labor resources. The data provided by these reports is an integral part of the Agency's accrual accounting and cost-based budgeting system. Respondents are reimbursed for associated cost to

provide the information, per their negotiated contract price and associated terms of the contract. There are no "total capital and start-up" or "total operation and maintenance and purchase of services" costs associated since NASA policy requires that data reported is generated from the contractors' existing system. The contractors' internal management system shall be relied upon to the maximum extent possible.

NASA is committed to effectively performing the Agency's communication function in accordance with the Space Act Section 203 (a)(3) to "provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof," and to enhance public understanding of, and participation in, the nation's aeronautical and space program in accordance with the NASA Strategic Plan.
