History and Description of the Remains

On an unknown date, human remains representing, at minimum, one individual were removed from the Reigh Site (47-WN-0001) in Winnebago County, WI. The first reports of disturbed burials at this location date back to the 1890s. In 1953, the land on which the site was located was quarried as a source of sand and gravel, which resulted in the discovery of burials by the B.F. Miller Excavating Company. Over time, the Oshkosh Public Museum, the Wisconsin Historical Society, the University of Wisconsin-Madison, and the Wisconsin Archaeological Survey sent fieldworkers to the site; excavations continued for several years.

In the early 1990s, the human remains (47WN0001_UNKNOW.0001.HR.0001a through 47WN0001_UNKNO.0001.HR.0003a) were encountered in a storage container

labeled with the site name and Smithsonian codification number. The human remains belong to an individual of undetermined sex, whose age is estimated to be between 8.6 years and 12.4 years. The burials at this site date to the Middle Archaic Stage (calibrated ca. 5000–1700 B.C.) and the Old Copper Industry (calibrated ca. 5000–1000 B.C.). Previously, the identification of a Middle Archaic tradition was premised on the side-notched bifaces found in some of the burials, specifically the Reigh side-notched knives and projectile points. More recently, a radiocarbon date from this site provided a calibrated one sigma range of 2350–1740 B.C. No known individual was identified. The one associated funerary object is a lot of fragmentary animal bones (47WN0001_ UNKNOW.0001.FA.0001).

Determinations Made by the University of Wisconsin Oshkosh

Officials of the University of Wisconsin Oshkosh have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(3)(A), the one object described in this notice is reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Ho-Chunk Nation of Wisconsin; Iowa Tribe of Kansas and Nebraska; Iowa Tribe of Oklahoma; Menominee Indian Tribe of Wisconsin; Ojibwa-Missouria Tribe of Indians, Oklahoma; and the Winnebago Tribe of Nebraska (hereafter referred to as “The Tribes”).

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Adrienne Frie, University of Wisconsin—Oshkosh, 800 Algoma Blvd., Oshkosh, WI 54901 telephone (920) 424–1365, email friea@uwosh.edu, by July 7, 2022. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to The Tribes may proceed.

The University of Wisconsin Oshkosh is responsible for notifying The Consulted and Notified Tribes and Groups that this notice has been published.
