

milk in the Pacific Northwest marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof it is found that:

(1) The Pacific Northwest order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The Pacific Northwest order, as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional Findings.* It is necessary in the public interest to make these amendments to the Pacific Northwest order effective July 1, 2004. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the aforesaid marketing area.

The amendments to these orders are known to handlers. The final decision containing the proposed amendments to these orders was issued on April 5, 2004.

The changes that result from these amendments will not require extensive preparation or substantial alteration in the method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making these order amendments effective July 1, 2004. It would be contrary to the public interest to delay the effective date of these amendments for 30 days after their publication in the **Federal Register**. (Section 553(d), Administrative Procedure Act, 5 U.S.C. 551–559.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 8c(9) of the Act) of more than 50 percent of the milk that is marketed within the specified marketing area to sign a proposed marketing agreement tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order amending the Pacific Northwest order is

the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended;

(3) The issuance of the order amending the Pacific Northwest order is favored by at least two-thirds of the producers who were engaged in the production of milk for sale in the marketing area.

Specifically, this final rule permanently adopts a “cooperative pool manufacturing plant” provision and continues system pooling for cooperative manufacturing plants. Additionally, this final rule permanently adopts a diversion limit of 80 percent of total producer receipts for a pool plant, continues the standard for the number of days during the month that the milk of a producer would need to be delivered to a pool plant in order for the rest of the milk of that producer to be eligible to be diverted to nonpool plants, and maintains the authority granted to the market administrator to adjust the touch-base standard.

RIN 0583–AC09

Beef or Pork with Barbecue Sauce; Revision of Standard

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: The Food Safety and Inspection Service (FSIS) is amending its regulations by removing meat yield requirements in the standard of identity for “Beef with Barbecue Sauce” and “Pork with Barbecue Sauce.” This action is in response to a petition. The petitioner states that the current food standard, promulgated in 1952, places producers of these products at a competitive disadvantage because producers of other meat and sauce products do not have a cooked meat yield requirement or a raw meat yield requirement. This action provides consistent requirements for most meat with sauce producers.

EFFECTIVE DATE: This rule is effective July 23, 2004.
