Abstract: The NSPS for the Magnetic Tape Coating Facilities (40 CFR part 60, subpart SSS) were: Proposed on January 22, 1986; promulgated on October 3, 1988; and last amended on February 12, 1999. The affected entities are subject to

the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart SSS. Owners or operators of the affected facilities must make an initial notification, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Form Numbers: None.

Respondents/affected entities: Magnetic tape coating facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart SSS).

Estimated number of respondents: 6 (total).

Frequency of response: Initially, occasionally, quarterly, and semiannually.

Total estimated burden: 2,017 hours (per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$283,727 (per year), includes \$86,400 annualized capital or operation & maintenance costs.

Changes in the estimates: There is no change in labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden. However, there is an adjustment increase in both the respondent and Agency burden costs due to an increase in labor rates.

Richard T. Westlund,

Acting Director, Collection Strategies Division.
