

## SUPPLEMENTARY INFORMATION:

## I. Abstract

The information collected is necessary to be in compliance with 25 CFR part 20. Funding is authorized by 25 U.S.C. 13. The information is used to make determinations of eligibility for the BIA's social service (financial assistance) programs: General Assistance, Child Welfare Assistance, Miscellaneous Assistance, and services only (no cash assistance).

A 60-day notice for public comments was published in the **Federal Register** on February 15, 2002 (67 FR 7190). The only comment received was that the form should be lengthened. The justification was not adequate to revise the form nor was this consistent with the BIA policy to reduce paperwork where possible.

## II. Request for Comments

The Department of the Interior invites comments being sent to OMB on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the BIA, including whether the information will have practical utility;

(b) The accuracy of the BIA's estimate of the burden (including hours and cost) of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other collection techniques or other forms of information technology.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Burden means the total time, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collection, validating, and verifying information, processing and maintaining information, and disclosing and providing information, to search data sources to complete and review the collection of information; and to transmit or otherwise disclose the information.
