Iroquois Gas Transmission System, L.P.; Notice of Technical and Scoping Meetings for the Proposed Eastchester Project, as Amended

January 23, 2001.

On December 15, 2000, Iroquois Gas Transmission System, L.P. (Iroquois), filed an amendment to the application for the Eastchester Project. Iroquois proposes to construct a natural gas pipeline from Long Island to the Bronx, New York. The amendment includes a new preferred route through the Bronx, three additional routing alternatives, as well as alternative interconnection locations with Consolidated Edison Company of New York's facilities. The amendment was noticed on December 28, 2000.

Iroquois's preferred alternative would traverse long Island Sound with landfall at Locust point. Through a combination of underground horizontal drilling and open-trench construction, the pipeline would cross the Throgs Neck Expressway, follow the Throgs Neck Expressway Extension to Lafayette Avenue and follow Lafayette Avenue to an interconnection site located just south of the intersection of Lafayette and Brush avenues on the east bank of Westchester Creek.

In a letter dated January 5, 2001, Congresswoman Nita M. Lowey requested a meeting be held to inform elected officials and the public about the pipeline certification process, Iroquois' amendment, and other viable route options. A technical meeting will be held to discuss these issues and to exchange information among state and federal agencies and U.S., state, and community representatives. The location and time for the technical meeting are listed below:

Date and Time: February 2, 2001, 10 a.m.

Location: Community Board 10, 3165 E. Tremont Avenue, Bronx, NY 10461.

Phone: (718) 892-1161.

While the public is welcome to attend the technical meeting, public comments will be received at the scoping meeting listed below:

Date and Time: February 15, 2001, 7 a.m.

Location: St. Francis de Chantal School, 2962 Harding Avenue, Bronx, NY 10465.

Phone: (718) 792-5500.

Comments received at the scoping meeting will assist Commission staff to determine the issues to be evaluated in the environmental impact statement and will be included in the Commission's record for this proceeding. Additional information may be obtained from John Schnagl, at (202) 219-2661.

Dialog Concerning Natural Gas Transportation; Policies Needed to Facilitate Development of Competitive Natural Gas Markets; Notice Deferring Staff Conference

January 23, 2001.

Take notice that the staff conference on affiliate issues that was to be convened in this proceeding on January 31, 2001 at 1 p.m. will be deferred until March 15, 2001. We are deferring the conference in light of the request for postponement filed by the Edison Electric Institute's Alliance of Energy Suppliers (Alliance) and supported by Reliant Energy Services. As noted in the Alliance's request, a deferral will allow resources to be more effectively applied to ongoing concerns. Deferral of the conference will also allow the Commission and the parties to incorporate winter operating experience in both the gas and electric industries in the discussion. A notice establishing the composition of the panel(s) will be issued in advance of the conference.

Amateur Service Club and Military Recreation Station Call Sign Administrators Announced

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: This document announces that the Commission has accepted requests from three organizations interested in processing applications for amateur service club, Radio Amateur Civil Emergency Service (RACES), and military recreation station call signs. The organizations are designated as a "Club Station Call Sign Administrators" (CSCSA) and will process applications for amateur service club, RACES, and military recreation station call signs.

DATES: Starting January 22, 2001, the FCC will accept applications for new, modification of, or renewal of amateur service club and military recreation station licenses, and modification of RACES station licenses, only from a CSCSA.

FOR FURTHER INFORMATION CONTACT: William T. Cross, Public Safety and Private Wireless Division, Wireless Telecommunications Bureau, (202) 418-0680.

SUPPLEMENTARY INFORMATION: In a Public Notice released on January 3, 2000, the Federal Communications Commission (FCC) announced that it would accept requests from organizations interested in processing applications for amateur service club, RACES, and military recreation station call signs pursuant to an October 21, 1998, Report and Order, 63 FR 68904, December 14, 1998, reinstituting the use of volunteer organizations for the purpose of processing applications for amateur service club and military recreation station call sign. A club station license is an amateur service station license granted only to the trustee of an amateur service club, which must be composed of at least four persons and have a name, a document of organization, management, and a primary purpose devoted to amateur service activities consistent with part 97 of the FCC's rules. A military recreation station license is an amateur service station license granted only to the person who is the license custodian designated by the official in charge of the United States military recreational premises where the station is situated. A RACES station license is an amateur service station license granted only to the person who is the license custodian designated by the official responsible for the governmental agency served by that civil defense organization and also authorizes only the use of a specific call sign.

The purpose of this Public Notice is to announce that beginning January 22, 2001, the FCC will accept the services of three organizations as CSCSAs. An
