Description: Section (3)(1) of the Fair Labor Standards Act (FLSA) establishes a minimum age of 16 for most nonagricultural employment, but allows the employment of 14 and 15 year olds in occupations other than manufacturing and mining if the Secretary of Labor determines such employment is confined to periods which will not interfere with their schooling and to conditions which will not interfere with their health and well-being. State educational agencies are required to file applications for approval of Work Experience and Career Exploration Programs (WECEP) that provide exceptions to the child labor regulations issued under the FLSA. State educational agencies are also required to maintain certain records with respect to approved WECEP programs. Less frequent application would not ensure that these programs do not interfere with the schooling of the minors or with their health and well-being. Less frequent record-keeping would make a determination of compliance with the law and regulations extremely difficult.
