DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket ID FMCSA–2008–0009]

Qualification of Drivers; Exemption Applications; Diabetes

AGENCY: Federal Motor Carrier Safety Administration (FMCSA).

ACTION: Notice of applications for exemptions from the diabetes standard; request for comments.

SUMMARY: FMCSA announces receipt of applications from 56 individuals for exemptions from the prohibition against persons with insulin-treated diabetes mellitus (ITDM) operating commercial motor vehicles (CMVs) in interstate commerce. If granted, the exemptions would enable these individuals with ITDM to operate commercial motor vehicles in interstate commerce.

DATES: Comments must be received on or before April 4, 2008.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket ID FMCSA–2007–0009 using any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.
- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue, SE., West Building, Ground Floor, Room W12–140, Washington, DC 20590–0001.
- *Hand Delivery:* West Building, Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.
- *Fax:* 1–202–493–2251.

Each submission must include the Agency name and the docket ID for this Notice. Note that DOT posts all comments received without change to <http://www.regulations.gov>, including any personal information included in a comment. Please see the Privacy Act heading below.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> at any time or Room W12–140 on the ground level of the West Building, 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The FDMS is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-

addressed, stamped envelope or postcard or print the acknowledgment page that appears after submitting comments on-line.

Privacy Act: Anyone may search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or of the person signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review the DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477–78; Apr. 11, 2000). This information is also available at <http://Docketinfo.dot.gov>.

FOR FURTHER INFORMATION CONTACT: Dr. Mary D. Gunnels, Director, Medical Programs, (202) 366–4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue, SE., Room W64–224, Washington, DC 20590–0001. Office hours are from 8:30 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.” The statutes also allow the Agency to renew exemptions at the end of the 2-year period. The 56 individuals listed in this notice have recently requested an exemption from the diabetes prohibition in 49 CFR 391.41(b)(3), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by the statutes.

Qualifications of Applicants

Ryan N. Adams

Mr. Adams, age 27, has had ITDM since 1994. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Adams meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that

he does not have diabetic retinopathy. He holds a Class C operator's license from California.

Clay B. Anderson

Mr. Anderson, 33, has had ITDM since 2004. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Anderson meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A Commercial Driver's License (CDL) from Illinois.

Michael B. Bessinger

Mr. Bessinger, 45, has had ITDM since 2006. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Bessinger meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Utah.

Douglas D. Brown

Mr. Brown, 48, has had ITDM since 1996. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Brown meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class D operator's license from Wisconsin.

Kenneth T. Clark

Mr. Clark, 46, has had ITDM since 1988. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Clark meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class C operator's license from California.

Joseph F. Colbert

Mr. Colbert, 54, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Colbert meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Pennsylvania.

Daniel E. Coufal

Mr. Coufal, 52, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Coufal meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Nebraska.

Stuart A. Dietz

Mr. Dietz, 58, has had ITDM since 2004. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or

resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Dietz meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class A CDL from Kansas.

John J. Durrence

Mr. Durrence, 56, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Durrence meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Georgia.

Michael B. Elzey

Mr. Elzey, 49, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Elzey meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class C operator's license from Wyoming.

Candy C. Eubank

Ms. Eubank, 40, has had ITDM since 1992. Her endocrinologist examined her in 2007 and certified that she has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of her diabetes using insulin, and is able to drive a CMV safely. Ms. Eubank meets the

requirements of the vision standard at 49 CFR 391.41(b)(10). Her optometrist examined her in 2007 and certified that she does not have diabetic retinopathy. She holds an operator's license from Virginia.

Thomas S. Faucette, Jr.

Mr. Faucette, 48, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Faucette meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from North Carolina.

Earl S. Fibish

Mr. Fibish, 52, has had ITDM since 1977. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Fibish meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class B CDL from Colorado.

Stanley R. Folkerts

Mr. Folkerts, 51, has had ITDM since 2004. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Folkerts meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from Minnesota.

Timothy L. Gahring

Mr. Gahring, 42, has had ITDM since 2004. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Gahring meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class C operator's license from Georgia.

Donald W. Giesbrecht

Mr. Giesbrecht, 57, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Giesbrecht meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Oregon.

Todd W. Gillespie

Mr. Gillespie, 39, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Gillespie meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from New York.

Stephen W. Golden

Mr. Golden, 41, has had ITDM since 2005. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function

that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Golden meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class 2 operator's license from Connecticut, which qualifies him to drive any motor vehicle, except a commercial motor vehicle, an articulated vehicle, or combination of motor vehicle and trailer where the gross weight of the trailer is more than 10,000 pounds.

Richard E. Grunden

Mr. Grunden, 44, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Grunden meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Indiana.

Jack L. Guffey

Mr. Guffey, 68, has had ITDM since 2005. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Guffey meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class A CDL from South Dakota.

Mark Hall

Mr. Hall, 49, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or

resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Hall meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from New Jersey.

Teresa M. Hansen

Ms. Hansen, 41, has had ITDM since 2004. Her endocrinologist examined her in 2007 and certified that she has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of her diabetes using insulin, and is able to drive a CMV safely. Ms. Hansen meets the requirements of the vision standard at 49 CFR 391.41(b)(10). Her optometrist examined her in 2007 and certified that she does not have diabetic retinopathy. She holds a Class 2 operator's license from Connecticut, which qualifies her to drive any motor vehicle, except a commercial motor vehicle, an articulated vehicle, or combination of motor vehicle and trailer where the gross weight of the trailer is more than 10,000 pounds.

Jason A. Henry

Mr. Henry, 35, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Henry meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Ohio.

Michael B. Heuett

Mr. Heuett, 40, has had ITDM since 2003. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function

that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Heuett meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Idaho.

John M. Hickey

Mr. Hickey, 68, has had ITDM since 2006. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Hickey meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Minnesota.

Joe Ibarra

Mr. Ibarra, 47, has had ITDM since 1999. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Ibarra meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class C operator's license from California.

Anthony L. Lambert

Mr. Lambert, 58, has had ITDM since 2002. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Lambert meets the

requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Alabama.

Paul F. Lanich

Mr. Lanich, 60, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Lanich meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Pennsylvania.

Ronald M. Lavallee

Mr. Lavallee, 42, has had ITDM since 1970. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Lavallee meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Massachusetts.

Eric R. Ledvina

Mr. Ledvina, 24, has had ITDM since 2005. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Ledvina meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Wisconsin.

Kenneth L. Lefeld

Mr. Lefeld, 47, has had ITDM since 1990. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Lefeld meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Ohio.

Steven J. Leite

Mr. Leite, 61, has had ITDM since 1974. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Leite meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class A CDL from Minnesota.

Daryl G. Lewis

Mr. Lewis, 57, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Lewis meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Texas.

George A. Lucietto

Mr. Lucietto, 59, has had ITDM since 1989. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function

that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Lucietto meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable proliferative diabetic retinopathy. He holds a Class B CDL from Florida.

Robert A. Manning

Mr. Manning, 41, has had ITDM since 1987. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Manning meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Illinois.

Ottis N. McCoy

Mr. McCoy, 27, has had ITDM since 2006. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. McCoy meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Florida.

Joseph G. McDonald

Mr. McDonald, 47, has had ITDM since 2005. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. McDonald meets the

requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from Maryland.

Richard L. McDonald

Mr. McDonald, 37, has had ITDM since 2004. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. McDonald meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Alabama.

David D. Millard, Jr.

Mr. Millard, 43, has had ITDM since 2006. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Millard meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class A CDL from Virginia.

Raymond E. Miller

Mr. Miller, 57, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Miller meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from South Dakota.

Victor E. Millwood

Mr. Millwood, 41, has had ITDM since 1982. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Millwood meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class C CDL from Alabama.

Walter G. Minshall, II

Mr. Minshall, 46, has had ITDM since 1996. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Minshall meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class A CDL from Colorado.

Alan J. Mitchell

Mr. Mitchell, 48, has had ITDM since 2001. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Mitchell meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Delaware.

Raymond P. Mora, Sr.

Mr. Mora, 51, has had ITDM since 2005. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or

resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Mora meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Arizona.

John M. Murray

Mr. Murray, 35, has had ITDM since 1974. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Murray meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class C CDL from New Jersey.

John R. Pile

Mr. Pile, 51, has had ITDM since 1958. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Pile meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class B CDL from Indiana.

Forest T. Porter

Mr. Porter, 46, has had ITDM since 2001. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV

safely. Mr. Porter meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Massachusetts.

John Rubillo

Mr. Rubillo, 58, has had ITDM since 1995. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Rubillo meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from Pennsylvania.

Jason E. Sanders

Mr. Sanders, 35, has had ITDM since 2006. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Sanders meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Ohio.

Christopher D. Singleton

Mr. Singleton, 48, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Singleton meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have

diabetic retinopathy. He holds a Class A CDL from Missouri.

Brian Slover

Mr. Slover, 31, has had ITDM since 1991. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Slover meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Ohio.

Steven T. Slowey

Mr. Slowey, 48, has had ITDM since 1992. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Slowey meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Massachusetts.

Jacob A. Small

Mr. Small, 51, has had ITDM since 2007. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Small meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from New Jersey.

Richard S. Synakowski

Mr. Synakowski, 46, has had ITDM since 2007. His endocrinologist

examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Synakowski meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from New York.

Sabrina F. Thomas

Ms. Thomas, 36, has had ITDM since 2007. Her endocrinologist examined her in 2007 and certified that she has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of her diabetes using insulin, and is able to drive a CMV safely. Ms. Thomas meets the requirements of the vision standard at 49 CFR 391.41(b)(10). Her optometrist examined her in 2007 and certified that she does not have diabetic retinopathy. She holds a Class C operator's license from Pennsylvania.

Scott D. Wimer

Mr. Wimer, 43, has had ITDM since 1973. His endocrinologist examined him in 2007 and certified that he has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years; understands diabetes management and monitoring; and has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Wimer meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2007 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Oklahoma.

Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments received before the close of business on the closing date indicated in the dates section of the Notice.

On October 19, 2007, FMCSA published in a notice of final disposition that the Agency was unable to make a final determination regarding Mr. Ronald C. Vertucci, Jr.'s application for a Federal diabetes exemption until additional medical information was submitted. The Agency has received and reviewed this information and has made a decision to grant Mr. Vertucci the exemption.

FMCSA notes that section 4129 of the Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) requires the Secretary to revise its diabetes exemption program established on September 3, 2003 (68 FR 52441).¹ The revision must provide for individual assessment of drivers with diabetes mellitus, and be consistent with the criteria described in section 4018 of the Transportation Equity Act for the 21st Century (49 U.S.C. 31305).

Section 4129 requires: (1) The elimination of the requirement for three years of experience operating CMVs while being treated with insulin; and (2) the establishment of a specified minimum period of insulin use to demonstrate stable control of diabetes before being allowed to operate a CMV.

In response to section 4129, FMCSA made immediate revisions to the diabetes exemption program established by the September 3, 2003 Notice. FMCSA discontinued use of the 3-year driving experience and fulfilled the requirements of section 4129 while continuing to ensure that operation of CMVs by drivers with ITDM will achieve the requisite level of safety required of all exemptions granted under 49 USC. 31136(e).

Section 4129(d) also directed FMCSA to ensure that drivers of CMVs with ITDM are not held to a higher standard than other drivers, with the exception of limited operating, monitoring and medical requirements that are deemed medically necessary.

FMCSA concluded that all of the operating, monitoring and medical requirements set out in the September 3, 2003 Notice, except as modified, were in compliance with section 4129(d). Therefore, all of the requirements set out in the September 3, 2003 Notice, except as modified by the Notice in the **Federal Register** on November 8, 2005 (70 FR 67777), remain in effect.

¹ Section 4129(a) refers to the 2003 Notice as a "final rule." However, the 2003 Notice did not issue a "final rule" but did establish the procedures and standards for issuing exemptions for drivers with ITDM.

Dated: February 26, 2008.

Larry W. Minor,

Associate Administrator for Policy and Program Development.

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-99-5578, FMCSA-99-6156, FMCSA-99-6480, FMCSA-00-7363, FMCSA-01-9258, FMCSA-03-16564, FMCSA-05-23238, FMCSA-06-23773]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemptions; request for comments.

SUMMARY: FMCSA announces its decision to renew the exemptions from the vision requirement in the Federal Motor Carrier Safety Regulations for 34 individuals. FMCSA has statutory authority to exempt individuals from the vision requirement if the exemptions granted will not compromise safety. The Agency has concluded that granting these exemption renewals will provide a level of safety that is equivalent to, or greater than, the level of safety maintained without the exemptions for these commercial motor vehicle (CMV) drivers.

DATES: This decision is effective April 14, 2008. Comments must be received on or before April 4, 2008.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket ID FMCSA-99-5578, FMCSA-99-6156, FMCSA-99-6480, FMCSA-00-7363, FMCSA-01-9258, FMCSA-03-16564, FMCSA-05-23238, FMCSA-06-23773, using any of the following methods.

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- **Mail:** Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue, SE., West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.

- **Hand Delivery or Courier:** West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

- **Fax:** 1-202-493-2251.

Each submission must include the Agency name and the docket number for this Notice. Note that DOT posts all comments received without change to <http://www.regulations.gov>, including any personal information included in a comment. Please see the Privacy Act heading below.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> at any time or Room W12-140 on the ground level of the West Building, 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The FDMS is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments on-line.

Privacy Act: Anyone may search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or of the person signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review the DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477-78; Apr. 11, 2000). This information is also available at <http://DocketInfo.dot.gov>.

FOR FURTHER INFORMATION CONTACT: Dr. Mary D. Gunnels, Director, Medical Programs, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue, SE., Room W64-224, Washington, DC 20590-0001. Office hours are from 8:30 a.m. to 5 p.m. Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

Exemption Decision

This notice addresses 34 individuals who have requested a renewal of their

exemption in accordance with FMCSA procedures. FMCSA has evaluated these 34 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Scott E. Ames
Otto J. Ammer, Jr.
Nick D. Bacon
Mark A. Baisden
Johnny W. Bradford
Lawrence M. Daley
Clifford H. Dovel
Ray L. Emert
Arthur L. Fields
John W. Forgy
Daniel R. Franks
Glenn E. Gee
Rupert G. Gilmore, III
Albert L. Gschwind
Walter R. Hardiman
George A. Hoffman, III
Laurent G. Jacques
Michael W. Jones
Matthew J. Konecki
Duane R. Krug
Paul E. Lindon
Jack D. Miller
Eric M. Moats, Sr.
Rick Moreno
Robert W. Nicks
Joseph S. Nix, IV
Monte L. Purciful
George S. Rayson
Luis F. Saavedra
Gerald M. Smith
Edward J. Sullivan
Steven Valley
Darel G. Wagner
Bernard J. Wood

These exemptions are extended subject to the following conditions: (1) That each individual have a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has
