SUPPLEMENTARY INFORMATION:**I. Background**

The Employment and Training Administration of the Department of Labor, in consultation with the Migrant and Seasonal Farmworker Employment and Training Advisory Committee, is requesting approval for a new reporting and performance standards system for Youth Title I-D Section 167 National Farmworker Jobs Programs of the Workforce Investment Act (WIA), youth grantees for three program years (July 1, 2000 to June 30, 2003). This is the first time since the Comprehensive Employment and Training Act (CETA), that funds have been appropriated for farmworker youth activities. The Department has developed the following recommended planning and reporting requirements.

II. Desired Focus of Comments

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's burden estimate for the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Action

This proposed ICR will be used by approximately 10 Workforce Investment Act (WIA) section 167 (d) youth grantees as the primary reporting and performance measurement vehicle for enrolled youths, their characteristics, training and services provided, outcomes, including job placement and retention, and attainment of basic skills, as well as detailed financial data on program expenditures.

Type of Review: New.

Agency: Employment and Training Administration.

Title: Planning, reporting, and performance system for WIA title I-D,

Section 167(d) National Farmworker Jobs Program youth grantees.

OMB Number: 1205-0NEW.

Record Keeping: Grantees shall retain supporting and other documents necessary for the compilation and submission of the subject reports for three years after submission of the final financial report for the grant in question [29 CFR 97.42 and/or 29 CFR 95.53].

Affected Public: State agencies; private, non-profit corporations.

Cite/Reference/Form/etc.: The collection instrument is the Youth, Title I-D, Section 167 National Farmworker Jobs Programs Planning, Reporting, and Performance System and related instructions. OMB-approved forms are provided for use in gathering information at the grantee field office level.

Total Respondents: 10.

Frequency: Annually for planning information; quarterly for both financial information and participation and characteristics information.

Total Annual Responses:

Planning—30 (one narrative, one Budget Information Summary, and one Program Planning Summary per grantee per year).

Participant Reporting—40 (one Program Status Summary per quarter, per grantee per year).

Participant Record Keeping (NFJP SPIR)—5,000 records.

There are four statutorily-required quarterly financial status reports per grantee per year, by year of appropriation. At this time, it is anticipated that the Standard Form (SF) 269 will be used to fulfill this requirement. Therefore, no separate collection/burden information for this standard form is being included here. For participation and characteristics information, there are four quarterly submissions per year, regardless of the year(s) of funding expended during the program year. There is only one format for the participation and characteristics report.

Average Time per Grantee Response:

Annual Plan—5 hours (narrative only).

Budget Information Summary (BIS)—15 hours; [ETA 8595].

Program Planning Summary (PPS)—15 hours; [ETA 8596].

Program Status Summary (PSS)—7 hours; [ETA 8598].
