

the result of such foreign commerce movement is found to be in that FRSMF State. States are obviously prohibited by the PPA from acting in such a Federal regulatory capacity unless such a cooperative arrangement is in place conferring Federal authority upon them to do so by the Secretary of Agriculture. Under these envisioned cooperative arrangements, States may be authorized to administer and enforce control actions to prevent the entry or movement of a specified FRSMF plant pest into or through their State only as Federal collaborators acting under the Federal authority conferred by the cooperative arrangement. APHIS does not confer any authority under the Plant Protection Act not specifically outlined in the cooperative arrangement and is not conferring authority under any other statute administered by APHIS, including the authority to establish and collect fees.

APHIS will monitor those States that have been authorized to act as Federal collaborators to ensure they are complying with the terms of the collaborative arrangement and the FRSMF program criteria. Failure of a State to meet the FRSMF program criteria will result in APHIS reconsidering the FRSMF program eligibility of that State program and the approval of any cooperative arrangement.

In cases where a State is no longer interested in taking action against a FRSMF pest and APHIS can no longer justify continued action against such a FRSMF pest, APHIS will discontinue taking Federal control actions, if APHIS has any such actions in place, when such FRSMF pests are intercepted at the United States ports of entry.

Additional information about the FRSMF program is available on the APHIS Web site at http://www.aphis.usda.gov/wps/portal/aphis/ourfocus/importexport?1dmy&uril=wcm%3apath%3a%2Faphis_content_library%2Fsa_our_focus%2Fsa_plant_health%2Fsa_domestic_pests_and_diseases%2Fsa_frsmf.
