**SUPPLEMENTARY INFORMATION:** The NSTAC is established under the authority of Executive Order (E.O.) 12382, dated September 13, 1982, as amended by E.O. 13286 and 14048, continued under the authority of E.O. 14109, dated September 30, 2023. Notice of this meeting is given under the Federal Advisory Committee Act (FACA), 5 U.S.C. 10 (Pub. L. 117–286). The NSTAC advises the President on matters related to national security and emergency preparedness (NS/EP) telecommunications and cybersecurity policy.

**Agenda:** The NSTAC will meet in an open session on Thursday, May 23, 2024, from 3:15 p.m. to 4:30 p.m. EDT to discuss current NSTAC activities and the government's ongoing cybersecurity and NS/EP communications initiatives. This open session will include: (1) an update on the administration's cybersecurity initiatives; (2) a keynote address; (3) an update on current NSTAC activities; and (4) a status update on the NSTAC Principles for Baseline Security Offerings from Cloud Service Providers Study.

The committee will also meet in a closed session from 1:00 to 3:00 p.m. EDT during which time: (1) senior government intelligence officials will provide a threat briefing concerning threats to NS/EP communications; and (2) engage NSTAC members in follow-on discussion on how future studies can help inform policy to mitigate threats.

**Basis for Closure:** In accordance with section 10(d) of FACA and 5 U.S.C. 552b(c)(1), *The Government in the Sunshine Act*, it has been determined that a portion of the agenda requires closure.

These agenda items are the: (1) classified threat briefing and discussion,

which will provide NSTAC members the opportunity to discuss information concerning threats to NS/EP communications with senior government intelligence officials; and (2) potential study topic discussion. The briefing is anticipated to be classified at the top secret/sensitive compartmented information level. Disclosure of these threats during the briefing, as well as vulnerabilities and mitigation techniques, is a risk to the Nation's cybersecurity posture because adversaries could use this information to compromise commercial and government networks. Subjects discussed during the potential study topics discussion are tentative and are under further consideration by the committee.

Therefore, this portion of the meeting is required to be closed pursuant to section 10(d) of FACA and 5 U.S.C. 552b(c)(1) because it will disclose matters that are classified.

Dated: April 18, 2024.
