

completed in 2020. The technical registrants subsequently requested cancellation of all diclofop-methyl products effective January 1, 2018.

Unless a request is withdrawn by the registrant or if the Agency determines that there are substantive comments that warrant further review of this request,

EPA intends to issue an order canceling the affected registrations.

IV. What is the agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA (7 U.S.C. 136d(f)(1)(B)) requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) (7 U.S.C. 136d(f)(1)(C)) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

Because diclofop-methyl is not registered for any minor agricultural uses, this 180-day comment provision does not apply, and EPA is providing a

30-day comment period on the proposed voluntary cancellation of diclofop-methyl registrations.

V. Procedures for Withdrawal of Requests

Registrants who choose to withdraw a request for product cancellation or use deletion should submit the withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the action. If the request for voluntary cancellation is granted, the Agency intends to publish the cancellation order in the **Federal Register**. Because these diclofop-methyl products are reregistered pesticides, there are no known risks of concern, and the effective cancellation date for the products will occur two years prior to the time of the planned registration review decision for diclofop-methyl, the Agency expects to grant this request unless the Agency receives substantive comments that warrant further review of the request or the registrants withdraw their request. In 2015, the Agency intends to issue an order in the **Federal Register** canceling all registrations effective January 1, 2018. On issuance of the cancellation order, EPA anticipates allowing registrants to sell and distribute existing stocks of these products until January 1, 2018. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit III., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks

are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.
