

November 8, 2010, as the deadline for filing public comments.

Public comment on the Commission's proposed Statement is critical to developing policies that are fair and beneficial to consumers, creditors, and legitimate debt collectors. The Commission has been notified that several parties are interested in filing public comments on the proposed Statement, but would need additional time to comment. Because the proposed Statement implicates complicated issues involving not only FDCPA law, but also state probate law, the Commission is extending the deadline for public comment.

The short extension of the comment period will not substantially delay Commission action. The Commission is mindful of the need to deal with this matter expeditiously; however, it also recognizes that the proposed Statement involves complex issues and believes that extending the comment period to facilitate the creation of a more complete evaluation outweighs any harm that might result from any delay. Accordingly, the Commission has decided to extend the comment period until December 1, 2010, to allow for additional comment. Comments should refer to "Deceased Debt Collection Policy Statement" to facilitate the organization of comments. Please note that your comment—including your name and your state—will be placed on the public record of this proceeding, including on the publicly accessible FTC Web site, at <http://www.ftc.gov/os/publiccomments.shtm>.

Because comments will be made public, they should not include any sensitive personal information, such as an individual's Social Security Number; date of birth; driver's license number or other state identification number, or foreign country equivalent; passport number; financial account number; or credit or debit card number. Comments also should not include any sensitive health information, such as medical records or other individually identifiable health information. In addition, comments should not include any "[t]rade secret or any commercial or financial information which is obtained from any person and which is privileged or confidential," as provided in Section 6(f) of the FTC Act, 15 U.S.C. 46(f), and Commission Rule 4.10(a)(2), 16 CFR 4.10(a)(2). Comments containing material for which confidential treatment is requested must be filed in paper form and clearly labeled "Confidential."<sup>1</sup>

<sup>1</sup> The comment must also be accompanied by an explicit request for confidential treatment,

Because paper mail addressed to the FTC is subject to delay due to heightened security screening, please consider submitting your comments in electronic form. Comments filed in electronic form should be submitted by using the following weblink: <https://ftcpublic.commentworks.com/ftc/deceaseddebtcollection> (and following the instructions on the web-based form). To ensure that the Commission considers an electronic comment, you must file it on the web-based form at the weblink <https://ftcpublic.commentworks.com/ftc/deceaseddebtcollection>. If this Notice appears at <http://www.regulations.gov/search/index.jsp>, you may also file an electronic comment through that Web site. The Commission will consider all comments that regulations.gov forwards to it. You may also visit the FTC Web site at <http://www.ftc.gov> to read the Notice and the news release describing it.

A comment filed in paper form should include the "Deceased Debt Collection Policy Statement" reference both in the text and on the envelope, and should be mailed or delivered to the following address: Federal Trade Commission/Office of the Secretary, Room H-113 (Annex W), 600 Pennsylvania Avenue, NW., Washington, DC 20580. The FTC is requesting that any comment filed in paper form be sent by courier or overnight service, if possible, because U.S. postal mail in the Washington area and at the Commission is subject to delay due to heightened security precautions.

The Federal Trade Commission Act ("FTC Act") and other laws the Commission administers permit the collection of public comments to consider and use in this proceeding as appropriate. The Commission will consider all timely and responsive public comments that it receives, whether filed in paper or electronic form. Comments received will be available to the public on the FTC Web site, to the extent practicable, at <http://www.ftc.gov/os/publiccomments.shtm>. As a matter of discretion, the Commission makes every effort to remove home contact information for individuals from the public comments it receives before placing those comments on the FTC Web site. More information, including routine uses permitted by the

including the factual and legal basis for the request, and must identify the specific portions of the comment to be withheld from the public record. The request will be granted or denied by the Commission's General Counsel, consistent with applicable law and the public interest. See Commission Rule 4.9(c), 16 CFR 4.9(c).

*Proposed Project:* Public Input to Nominate Non-Federal Health and Health Care Data Sets and Applications for Listing on [Healthdata.gov](http://Healthdata.gov)-OMB No. 0990–NEW—Immediate Office of the Secretary, Office of the Chief Technology Officer.

*Abstract:* The Department of Health and Human Services is promoting the use of health and health care datasets that are not specific to individual’s personal health information to improve decision making by individuals, organizations, and governments through better understanding of the data. Federal agencies are making health indicator datasets (data that is not associated with any individuals) and tools available for use by the public through a web portal community known as [healthdata.gov](http://www.healthdata.gov) or <http://www.data.gov/health>. These datasets and tools are anticipated to benefit development of applications, web-based tools, and other electronic resources improve community action for health and health care. The development of tools, reference sets, dashboards, and electronic data visualization methods serve to provide context and understanding to complex health and health care data.

To broaden the type and amount of data available for these purposes, HHS is soliciting public input on nominations of non-federal health and health data indicator datasets and applications using them to improve health and health data. For example, health indicator datasets representing surveys conducted by state government or private organizations may be considered as high-value datasets among researchers, applications developers, and others.
