What Information Is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments

from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does This Apply to?

Affected entities: Institutions of higher education, hospitals, and other not-for-profit institutions; State, local, and Indian tribal governments.

Title: General Administrative Requirements for Assistance Programs.
ICR numbers: EPA ICR No. 0938.16, OMB Control No. 2030-0020.

ICR status: This ICR is scheduled to expire on April 30, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The information is collected from applicants/recipients of EPA assistance to monitor adherence to the programmatic and administrative requirements of the Agency's financial assistance program. It is used to make awards, pay recipients, and collect

information on how Federal funds are being spent. EPA needs this information to meet its Federal stewardship responsibilities. This ICR renewal requests authorization for the collection of information under EPA's General Regulation for Assistance Programs, which establishes minimum management requirements for all recipients of EPA grants or cooperative agreements (assistance agreements). Recipients must respond to these information requests to obtain and/or retain a benefit (Federal funds). 40 CFR part 30, "Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-profit Organizations," includes the management requirements for potential grantees from non-profit organizations. 40 CFR part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," includes the management responsibilities for potential State and local government grantees. These regulations include only those provisions mandated by statute, required by OMB Circulars, or added by EPA to ensure sound and effective financial assistance management. This ICR combines all of these requirements under OMB Control Number 2030-0020. The information required by these regulations will be used by EPA award officials to make assistance awards and assistance payments and to verify that the recipient is using Federal funds appropriately to comply with OMB Circulars A-21, A-87, A-102, A-110, A-122, A-128, and A-133, which set forth the pre-award, post-award, and after-the-grant requirements.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 18 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated Average Annual Number of Recipients: 6,105.

Estimated Annual Frequency of Response: On occasion, quarterly, and annually.

Estimated Total Annual Respondent Burden Hours: 108,887 hours.

Estimated Total Annual Respondent Costs: \$5,573,132. This includes an estimated labor cost of \$5,573,132 and \$0 for capital investment or maintenance and operational costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: October 29, 2008.

Howard Corcoran,

Director of the Office of Grants and Debarment.
