Take notice that on December 12, 2014, pursuant to Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206 and sections 206 and 306 of the Federal Power Act, 16 U.S.C. 824e and 825e, San Francisco Bay Area Rapid Transit District (Complainant), filed a formal complaint against Pacific Gas and Electric Company (Respondent), alleging that the Respondent's intent to discontinue providing electric tags (e-Tags) needed for transmission of electricity to the Complainant from sources outside of the California Independent System Operator Balancing Authority Area would violate the Service Agreement for Network Integration Transmission Service between the Complainant and Respondent, as more fully explained in the complaint.

The Complainant certifies that copies of the complaint were served on the contacts of the Respondent as listed on the Commission's list of Corporation Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and

In addition, NC WARN requests the Commission to investigate the Respondent's practices to determine if the Respondent should enter into a Regional Transmission Operator and purchase necessary power from other utilities rather than construct wasteful and redundant generating plants.
