

Because there still is a need for HHS to clarify its interpretation of how the orphan drug exclusion in the 340B Program should be implemented to be consistent with section 340B(e) of the PHSA, HHS is making available an interpretive rule on this topic. In short, this interpretive rule clarifies that HHS interprets section 340B(e) of the PHSA as excluding drugs with an orphan designation only when those drugs are transferred, prescribed, sold, or otherwise used for the rare condition or disease for which the drug was designated under section 526 of the FD&C Act. This section of the PHSA does not exclude drugs that are transferred, prescribed, sold, or otherwise used for conditions or diseases other than for which the drug was designated under section 526 of the FD&C Act.
