NUCLEAR REGULATORY COMMISSION

[Docket No. 63-001]

Department of Energy; Notice of Acceptance for Docketing of a License Application for Authority To Construct a Geologic Repository at a Geologic Repository Operations Area at Yucca Mountain, NV

By letter dated June 3, 2008, the Department of Energy (DOE, or the Applicant) submitted a license application (Application) seeking authorization to construct a geologic repository at a geologic repository operations area at Yucca Mountain in Nye County, Nevada. The Application was submitted to the Nuclear Regulatory Commission (NRC), pursuant to Section 114 of the Nuclear Waste Policy Act, as amended (NWPA), Title 10 of the Code of Federal Regulations (10 CFR) Part 63, and 10 CFR 2.101. NRC published a notice of receipt and availability of this application in the **Federal Register** (73 FR 34348, corrected in 73 FR 40883) on June 17, 2008.

The NRC staff has determined that DOE has submitted information in accord with 10 CFR Part 2, "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," and 10 CFR Part 63, "Disposal of High-Level Radioactive Wastes in a Geologic Repository at Yucca Mountain, Nevada," that can be accepted for docketing and review. The docket number established for this license application is 63-001.

The NRC staff will perform a detailed technical review of the license application to determine whether to authorize construction of a geologic repository. Docketing of the license application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny a construction authorization. The Commission will conduct a hearing in accord with 10 CFR Part 2, Subpart C, "Rules of General Applicability: Hearing Requests, Petitions to Intervene, Availability of Documents, Selection of Specific Hearing Procedures, Presiding Officer Powers, and General Hearing Management for NRC Adjudicatory Hearings," Subpart J, "Procedures Applicable to Proceedings for the Issuance of Licenses for the Receipt of High-Level Radioactive Waste at a Geologic Repository," and Subpart G, "Rules for Formal Adjudications." If the Commission finds that the license application meets the applicable standards of the Atomic Energy Act of
