ENVIRONMENTAL PROTECTION AGENCY

[FRL–9542–02–OAR]

Final Allocations of Cross-State Air Pollution Rule Allowances From New Unit Set-Asides for 2021 Control Periods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability.

SUMMARY: The Environmental Protection Agency (EPA) is providing notice of the availability of data on emission allowance allocations to certain units under the Cross-State Air Pollution Rule (CSAPR) trading programs. EPA has completed final calculations for the allocations of allowances from the CSAPR new unit set-asides (NUSAs) for the 2021 control periods and has posted spreadsheets containing the calculations on EPA's website. EPA has also completed calculations for allocations of the remaining 2021 NUSA allowances to existing units and has posted spreadsheets containing those calculations on EPA's website as well.

DATES: April 18, 2022.

FOR FURTHER INFORMATION CONTACT:

Questions concerning this action should be addressed to Jason Kuhns at (202) 564–3236 or kuhns.jason@epa.gov or Andrew Reighart at (202) 564–0418 or reighart.andrew@epa.gov.

SUPPLEMENTARY INFORMATION: Under each CSAPR trading program where EPA is responsible for determining emission allowance allocations, a portion of each state's emissions budget for the program for each control period is reserved in a NUSA (and in an additional Indian country NUSA in the case of states with Indian country

within their borders) for allocation to certain units that would not otherwise receive allowance allocations. The procedures for identifying the eligible units for each control period and for allocating allowances from the NUSAs and Indian country NUSAs to these units are set forth in the CSAPR trading program regulations at 40 CFR 97.411(b) and 97.412 (NO_x Annual), 97.511(b) and 97.512 (NO_x Ozone Season Group 1), 97.611(b) and 97.612 (SO₂ Group 1), 97.711(b) and 97.712 (SO₂ Group 2), 97.811(b) and 97.812 (NO_x Ozone Season Group 2), and 97.1011(b) and 97.1012 (NO_x Ozone Season Group 3). Each NUSA allowance allocation process involves allocations to eligible units, termed “new” units, followed by the allocation to “existing” units of any allowances not allocated to new units.¹

In a notice of data availability (NODA) published in the *Federal Register* on February 25, 2021 (87 FR 10786), EPA provided notice of the preliminary calculations of NUSA allowance allocations for the 2021 control periods and described the process for submitting any objections. This NODA concerns the final NUSA allowance allocations.

In response to the February 25, 2021 NODA, EPA received written objections from Wisconsin Electric Power Company and the Wisconsin Department of Natural Resources. Both objections state that when calculating the allocation of CSAPR SO₂ Group 1 allowances for unit 2 at the Elm Road Generating Station (Plant ID 56068), EPA should have used a value of 315 tons instead of 262 tons for the unit's reported 2021 SO₂ emissions. Based on a review of the reported 2021 emissions data, EPA agrees with these objections and accordingly has corrected the final NUSA allowance allocations for the CSAPR SO₂ Group 1 Trading Program for Wisconsin to reflect a 53-ton increase in the amount of NUSA allowances allocated to Elm Road unit 2 and a corresponding 53-ton decrease in the collective amounts of NUSA allowances allocated to the state's “existing” units. EPA received no other written objections, and all other final allocations are unchanged from the preliminary allocations.

The detailed unit-by-unit data and final allowance allocation calculations are set forth in Excel spreadsheets titled “CSAPR NUSA 2021 NO_x Annual Final Data New Units,” “CSAPR NUSA 2021 NO_x OS Final Data

New Units,” “CSAPR NUSA 2021 SO₂ Final Data New Units,” “CSAPR NUSA 2021 NO_x Annual Final Data Existing Units,” “CSAPR NUSA 2021 NO_x OS Final Data Existing Units,” and “CSAPR NUSA 2021 SO₂ Final Data Existing Units”, available on EPA's website at <https://www.epa.gov/csapr/csapr-compliance-year-2021-nusa-nodas>.

EPA notes that an allocation or lack of allocation of allowances to a given unit does not constitute a determination that CSAPR does or does not apply to the unit. EPA also notes that, under 40 CFR 97.411(c), 97.511(c), 97.611(c), 97.711(c), 97.811(c), and 97.1011(c), allocations are subject to potential correction if a unit to which allowances have been allocated for a given control period is not actually an affected unit as of the start of that control period.

(Authority: 40 CFR 97.411(b), 97.511(b), 97.611(b), 97.711(b), 97.811(b), and 97.1011(b).)

Rona Birnbaum,

Director, Clean Air Markets Division, Office of Atmospheric Programs, Office of Air and Radiation.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0214, OMB 3060–0718, OMB 3060–1185 and OMB 3060–1207; FR ID 82672]

Information Collections Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it can further reduce the information collection burden for small business concerns with fewer than 25 employees.

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before May 18, 2022.

¹ For control periods before 2021, the NUSA allocation process involved two rounds of allocations. The current one-round process for all CSAPR trading programs was adopted in the Revised CSAPR Update. Refer to 86 FR 23054, 23145–46 (April 30, 2021).
