**SUPPLEMENTARY INFORMATION:****A. Background**

This proposed rule revises FAR subpart 8.5 and the clause at 52.208-8 to implement the U.S. Department of the Interior's final rule regarding helium contracts that was published in the *Federal Register* at 63 FR 66760, December 3, 1998.

The proposed rule—

- Requires agencies and their contractors and subcontractors to

purchase major helium requirements from Federal helium suppliers;

- Changes the definitions;
- Eliminates the requirement for certain contractors and subcontractors to submit helium forecasts; and
- Establishes the requirement that contractors and subcontractors under contracts with a major helium requirement must report purchases of helium from Federal helium suppliers.

The rule is written using plain language in accordance with the White House memorandum, Plain Language in Government Writing, dated June 1, 1999.

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

**B. Regulatory Flexibility Act**

The Councils do not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule eliminates the information requirement for submitting helium forecasts and replaces it with a similar information requirement to report helium purchases. We estimate that the net change is zero. An Initial Regulatory Flexibility Analysis has, therefore, not been performed. We invite comments from small businesses and other interested parties. The Councils will consider comments from small entities concerning the affected FAR parts 8 and 52 in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, *et seq.* (FAR case 2000-008), in correspondence.

**C. Paperwork Reduction Act**

The Paperwork Reduction Act does apply; however, the proposed changes to the FAR do not materially change existing information collection requirements under OMB Control Number 9000-0113, which was previously approved by the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

*Acting Director, Federal Acquisition Policy Division.*

Therefore, DoD, GSA, and NASA propose that 48 CFR parts 8 and 52 be amended as set forth below:

1. The authority citation for 48 CFR parts 8 and 52 continues to read as follows:

**Authority:** 40 U.S.C. 486(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

**PART 8—REQUIRED SOURCES OF  
SUPPLIES AND SERVICES****§ 8.500 [Amended]**

2. Amend section 8.500 by removing “30 CFR Parts 601 and 602” and add “43 CFR part 3195” in its place.

3. Amend section 8.501 as follows:

(a) Remove the definitions “Bureau helium” and “Helium requirement forecast”;

(b) Amend the definition “Bureau of Land Management” by removing “Field” and after the word “Street” adding “ Suite 500”;

(c) Add the definition “Federal helium supplier”; and

(d) Revise the definition “Major helium requirement”; The added and revised text reads as follows:

**8.501 Definitions.**

\* \* \* \* \*

*Federal helium supplier* means a private helium vendor that has an in-kind crude helium sales contract with the Bureau of Land Management (BLM) and that is on the BLM Amarillo Field Office's Authorized List of Federal Helium Suppliers available via the Internet at [http://www.nm.blm.gov/www/amfo/amfo\\_home.html](http://www.nm.blm.gov/www/amfo/amfo_home.html).

*Major helium requirement* means an estimated refined helium requirement greater than 200,000 standard cubic feet (scf) (measured at 14.7 pounds per square inch absolute pressure and 70 degrees Fahrenheit temperature) of gaseous helium or 7510 liters of liquid helium delivered to a helium use location per year.

4. Revise section 8.502 to read as follows:

**8.502 Policy.**

Agencies and their contractors and subcontractors must purchase major helium requirements from Federal helium suppliers, to the extent that supplies are available.
