

the Associate Commissioner for Disability Determinations or his or her delegate to be deficient, the Associate Commissioner or his or her delegate will take appropriate action to assure that the deficiency is corrected before a reconsidered determination is issued. The action taken by the Associate Commissioner or his or her delegate will take one of two forms:

(1) The Associate Commissioner or his or her delegate may return the case file either to the component responsible for preparing the case for hearing or to the disability hearing officer, for appropriate further action; or

(2) The Associate Commissioner or his or her delegate may issue a written reconsidered determination which corrects the deficiency.

(c) *Further action on your case if it is sent back by the Associate Commissioner for Disability Determinations or his or her delegate either to the component that prepared your case for hearing or to the disability hearing officer.* If the Associate Commissioner for Disability Determinations or his or her delegate sends your case back either to the component responsible for preparing the case for hearing or to the disability hearing officer for appropriate further action, as provided in paragraph (b)(1) of this section, any additional proceedings in your case will be governed by the disability hearing procedures described in § 416.1416(f) or if your case is returned to the disability hearing officer and an unfavorable determination is indicated, a supplementary hearing may be scheduled for you before a reconsidered determination is reached in your case.

(d) *Opportunity to comment before the Associate Commissioner for Disability Determinations or his or her delegate issues a reconsidered determination that is unfavorable to you.* If the Associate Commissioner for Disability Determinations or his or her delegate proposes to issue a reconsidered determination as described in paragraph (b)(2) of this section, and that reconsidered determination is unfavorable to you, he or she will send you a copy of the proposed reconsidered determination with an explanation of the reasons for it, and will give you an opportunity to submit written comments before it is issued. At your request, you will also be given an opportunity to inspect the pertinent materials in your case file, including the reconsidered determination prepared by the disability hearing officer, before submitting your comments. You will be given 10 days from the date you receive the Associate Commissioner's notice of

proposed action to submit your written comments, unless additional time is necessary to provide access to the pertinent file materials or there is good cause for providing more time, as illustrated by the examples in § 416.1411(b). The Associate Commissioner or his or her delegate will consider your comments before taking any further action on your case.

[Docket No. 2003P-0564]

Microbiology Devices; Reclassification of Hepatitis A Virus Serological Assays; Correction

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; correction.

SUMMARY: The Food and Drug Administration (FDA) is correcting a final rule that appeared in the **Federal Register** of February 9, 2006 (71 FR 6677). That document reclassified hepatitis A virus (HAV) serological assays from class III (premarket approval) into class II (special controls). That document inadvertently published with an error. This document corrects the error.

DATES: This rule is effective March 13, 2006.

FOR FURTHER INFORMATION CONTACT: Sally Hojvat, Center for Devices and Radiological Health (HFZ-440), Food and Drug Administration, 9200 Corporate Blvd., Rockville, MD 20850, 240-276-0496.

SUPPLEMENTARY INFORMATION: In FR Doc. 06-1206, appearing on page 6677 in the **Federal Register** of Thursday, February 9, 2006, the following correction is made:

1. On page 6679, beginning in the first column, under section "VI. Analysis of Impacts," the second paragraph is corrected to read:

The Regulatory Flexibility Act requires agencies to analyze regulatory options that would minimize any significant impact of a rule on small entities. Reclassification of HAV serological assays from class III into class II will relieve manufacturers of the cost of complying with the premarket approval requirements in section 515 of the act. Because reclassification will reduce regulatory costs with respect to these devices, the agency certifies that the final rule will not

have a significant economic impact on a substantial number of small entities.

Dated: February 21, 2006.

Linda S. Kahan,

Deputy Director, Center for Devices and Radiological Health.
