out the President's Emergency Plan for AIDS Relief (PEPFAR).

- *Estimated Number of Respondents:* 1581.
 - *Estimated Number of Responses:* 1581.
 - *Average Time per Response:* 24 hours.
 - *Total Estimated Burden Time:* 37,944 hours.
 - *Frequency:* Annually.
 - *Obligation to Respond:* Mandatory.
- We are soliciting public comments to permit the Department to:
- Evaluate whether the proposed information collection is necessary for the proper functions of the Department.
 - Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.
 - Enhance the quality, utility, and clarity of the information to be collected.
 - Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of proposed collection: The U.S. President's Emergency Plan for AIDS Relief (PEPFAR) was established through enactment of the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003 (Pub. L. 108–25), as amended by the Tom Lantos and Henry J. Hyde United States Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008 (Pub. L. 110–293) (HIV/AIDS Leadership Act) to support the global response to HIV/AIDS. In order to improve program monitoring, the Finance and Economics Work Group under PEPFAR proposes to add reporting of expenditures by program area to the current routine reporting of program results for the annual report. Data will be collected from implementing partners in countries with PEPFAR programs using a standard tool (DS–4213) via an electronic interface. These data will then be analyzed to produce mean and range in expenditures by partner per result/achievement for all PEPFAR program areas. These analyses then feed into partner and program reviews at the country level for monitoring and evaluation on an ongoing basis. Summaries of these data provide key

information about program costs under PEPFAR on a global level. Applying expenditure results will improve strategic budgeting, identification of efficient means of delivering services, accuracy in defining program targets, and will inform allocation of resources to ensure the program is accountable and using public funds for maximum impact.

Methodology: Data will be collected in a standard electronic template available to all partners receiving funds under PEPFAR. To minimize both reporting burden and investment costs into information technologies, a new module capturing expenditure data will be added to an already functional system. This approach will minimize US Government start up costs for the technology and ensure data collection processes are as efficient as possible.

Dated: October 31, 2013.

Julia Martin,

Chief Operations Officer, Office of the Global AIDS Coordinator, Department of State.
