

Responses: 1830; (7) Annual Estimated Number of Burden Hours: 4412.4; (8) Annual Estimated Reporting and Recordkeeping Cost Burden: \$199,087.49.

The revision consists of updates to two documents: DOE F 482.2 and DOE F 2050.11. For DOE F 482.2, the form is modified to add a Patents Rights-Waiver Clause Including U.S. Competitiveness terms and conditions acceptance to the beginning of the document. As for DOE F 2050.11, this form is modified to add the appropriate Paperwork Reduction Act statement that is currently included in each of the other documents within the collection.

Statutory Authority: 42 U.S.C. 5908(a) (b) and (c); 37 CFR part 404; 10 CFR part 784.

Signing Authority: This document of the Department of Energy was signed on November 2, 2021, by Brian Lally, Assistant General Counsel for Technology Transfer and Intellectual Property, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect on this document upon publication in the **Federal Register**.

Signed in Washington, DC, on November 2, 2021.

Treena V. Garrett,
Federal Register Liaison Officer, U.S.
Department of Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-184-D]

Application To Export Electric Energy; Morgan Stanley Capital Group Inc.

AGENCY: Office of Electricity,
Department of Energy.

ACTION: Notice of application.

SUMMARY: Morgan Stanley Capital Group Inc. (Applicant or MSCG) has applied for authorization to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 6, 2021.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to (202) 586-8008.

FOR FURTHER INFORMATION CONTACT: Matt Aronoff, (202) 586-5863, matthew.aronoff@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) regulates exports of electricity from the United States to a foreign country, pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 42 U.S.C. 7172(f)). Such exports require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On October 7, 2021, MSCG filed an application with DOE (Application or App.) to transmit electric energy from the United States to Mexico “for a five-year period, or such longer period as the Department may authorize for similarly situated power marketers.” App. at 1. MSCG states that it “is a Delaware corporation with its principal place of business in New York, New York” and that it “is an indirect, wholly-owned subsidiary of Morgan Stanley.” *Id.* at 2. MSCG represents that it “does not directly own or control any electric generation or transmission facilities, nor does it hold a franchise or service territory for the transmission, distribution, or sale of electric power.” *Id.* at 3.

MSCG states that it “has purchased, or will purchase, the power that may be exported to Mexico from wholesale generators, electric utilities, and federal power marketing agencies.” App. at 7. MSCG contends that its proposed export of electricity “will not impair the sufficiency of electric supply within the United States, nor does it or will it impede or tend to impede the coordination in the public interest of facilities subject to the jurisdiction of the Federal Energy Regulatory Commission.” *Id.* at 1-2.

The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC)

Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning MSCG’s application to export electric energy to Mexico should be clearly marked with OE Docket No. EA-184-D. Additional copies are to be provided directly to Edward Zabrocki, 1633 Broadway, 29th Floor, New York, NY 10019, Ed.Zabrocki@morganstanley.com; Daniel E. Frank, 700 Sixth St. NW, Suite 700, Washington, DC 20001-3980, danielfrank@eversheds-sutherland.com; and Martha M. Hopkins, 700 Sixth St. NW, Suite 700, Washington, DC 20001-3980, martyhopkins@eversheds-sutherland.com.

Copies of the Application will be made available, upon request, by accessing the program website at <https://energy.gov/node/11845>, or by emailing Matt Aronoff at matthew.aronoff@hq.doe.gov.

Signed in Washington, DC, on November 1, 2021.

Christopher Lawrence,
Management and Program Analyst, Electricity
Delivery Division, Office of Electricity.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-314-C]

Application To Export Electric Energy; BP Energy Company

AGENCY: Office of Electricity,
Department of Energy.

ACTION: Notice of application.

SUMMARY: BP Energy Company (Applicant or BP Energy) has applied for authorization to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 6, 2021.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to (202) 586-8008.

FOR FURTHER INFORMATION CONTACT: Matt Aronoff, (202) 586-5863, matthew.aronoff@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) regulates exports of electricity from the United States to a foreign country, pursuant to

sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 42 U.S.C. 7172(f)). Such exports require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On October 20, 2021, BP Energy filed an application with DOE (Application or App.) to transmit electric energy from the United States to Mexico “for a term of five (5) years, or the maximum period allowed.” App. at 1. BP Energy states that it “is a Delaware corporation and a wholly-owned indirect subsidiary of BP America Inc.” which “is an indirect, wholly-owned subsidiary of BP p.l.c. (“BP”), a company organized under the laws of England and Wales with its international headquarters in London, UK and its U.S. headquarters in Houston, Texas.” *Id.* at 2. BP Energy represents that “[n]either [it] nor any of its affiliates own or control electric transmission facilities except for those facilities that are necessary to connect generating facilities owned by affiliates to the transmission grid.” *Id.* at 5.

BP Energy further claims that its proposed purchases will come from “electric utilities, power marketers, federal power marketing agencies, and affiliated suppliers pursuant to voluntary agreements.” App. at 5. BP Energy contends that its proposed exports “do not and will not impair the sufficiency of the electric power supply within the United States.” *Id.* at 5–6. BP Energy adds that its exports “will not impede or tend to impede the regional coordination of electric utility planning or operations, but will instead conform to system requirements as they may change over time.” *Id.* at 6.

The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC) Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning BP Energy’s application to export electric energy to Mexico should be clearly marked with OE Docket No.

EA–314–C. Additional copies are to be provided directly to Betsy Carr, 201 Helios Way, Houston, TX 77079, betsy.carr@bp.com; and Judy Briscoe, 201 Helios Way, Houston, TX 77079, judy.briscoe@bp.com.

Copies of the Application will be made available, upon request, by accessing the program website at <https://energy.gov/node/11845>, or by emailing Matt Aronoff at matthew.aronoff@hq.doe.gov.

Signed in Washington, DC, on November 1, 2021.

Christopher Lawrence,

Management and Program Analyst, Electricity Delivery Division, Office of Electricity.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Notice of Availability of Draft Waste Incidental to Reprocessing Evaluation for the Test Bed Initiative Demonstration

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of availability.

SUMMARY: The U.S. Department of Energy (DOE) announces the availability of the *Draft Waste Incidental to Reprocessing Evaluation for the Test Bed Initiative Demonstration, U.S. Department of Energy* (Draft WIR Evaluation). The Draft WIR Evaluation concerns DOE’s proposed Test Bed Initiative (TBI) Demonstration. Under the proposed TBI Demonstration, approximately 2,000 gallons of waste from tank SY–101 at the Hanford Site in Washington will be pretreated to remove most key radionuclides, then solidified (grouted) offsite and subsequently disposed of at a licensed and permitted disposal facility outside of the State of Washington. The Draft WIR Evaluation demonstrates that the pretreated and solidified waste will be incidental to reprocessing of spent nuclear fuel, will not be high-level radioactive waste (HLW), and may be managed as low-level radioactive waste (LLW). DOE prepared the Draft WIR Evaluation pursuant to DOE Order 435.1, *Radioactive Waste Management*, and DOE Manual 435.1–1, chg 3, *Radioactive Waste Management Manual*. DOE is consulting with the Nuclear Regulatory Commission (NRC) concerning the Draft WIR Evaluation. DOE is also making the Draft WIR Evaluation available for comments from States, Tribal Nations, stakeholders and the public. After consultation with NRC, carefully considering comments

received, and performing any necessary revisions of analyses and technical documents, DOE plans to prepare a final WIR Evaluation. Based on the final WIR Evaluation, DOE may determine, in a future WIR Determination, whether the pretreated and solidified waste is incidental to reprocessing, is non-HLW, and may be managed as LLW.

DATES: DOE invites comments on the Draft WIR Evaluation during a 90-day comment period beginning November 5, 2021 and ending on February 2, 2022. DOE will consider all comments received by February 2, 2022. A public meeting on the Draft WIR Evaluation will be held on November 18, 2021. Before the meeting, DOE will issue stakeholder and media notifications and publish an additional notice in the local newspaper providing the date, time, and information concerning the public meeting.

ADDRESSES: Information on the public meeting date will be available before the meeting at the website listed in <https://www.hanford.gov/pageAction.cfm/calendar>. The Draft WIR Evaluation is available on the internet at <https://www.hanford.gov/page.cfm/ReprocessingEvaluationforBedInitiative>. Written comments should be submitted to: Ms. Jennifer Colborn, U.S. Department of Energy, Office of River Protection, 2440 Stevens Drive, Richland, WA 99354. Alternatively, comments may also be filed electronically by email to: TBIWIR@rl.gov.

FOR FURTHER INFORMATION CONTACT: For further information about this Draft WIR Evaluation, please contact Mr. Richard Valle by mail at U.S. Department of Energy, Office of River Protection, 2440 Stevens Drive, Richland, WA 99354, by phone at (509) 376–7256, or by email at richard_j_valle@orp.doe.gov.

SUPPLEMENTARY INFORMATION: DOE currently stores radioactive waste in underground tanks at the Hanford Site in the State of Washington. The waste is managed as HLW generated, in part, by the prior reprocessing of spent nuclear fuel for defense-related activities during the Manhattan Project and Cold War eras. Hanford’s current mission focuses on the cleanup and remediation of those wastes and ultimate closure of the site. As part of that mission, DOE is retrieving waste from the Hanford tanks, separating the low-activity waste (LAW) from other waste in the Hanford tanks and vitrifying (immobilizing in a glass matrix) some of the LAW. DOE has not selected a supplemental treatment method for the remaining LAW in the
