

of the functions of the agency, including whether the information collected has practical utility; (2) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Dated: December 17, 2003.

**Patricia L. Dunnington,**

Chief Information Officer, Office of the Administrator.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 03-155]

### National Environmental Policy Act; Outrigger Telescopes Project

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of intent to prepare an environmental impact statement (EIS) and conduct scoping for the Outrigger Telescopes Project.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4231 *et seq.*), the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500-1508), and NASA policy and procedures (14 CFR part 1216 subpart 1216.3), NASA intends to prepare an EIS for the proposed Outrigger Telescopes Project (OTP). The EIS will address environmental issues associated with the on-site construction, installation, and operation of four to six 1.8-meter (72-inch) Outrigger Telescopes. NASA proposes to fund the OTP at the W.M. Keck Observatory (WMKO) site within the Astronomy Precinct of the Mauna Kea Science Reserve on the Island of Hawaii, State of Hawaii.

**DATES:** Interested parties are invited to submit comments on or before February 16, 2004, to assure full consideration during the scoping process.

**ADDRESSES:** Comments should be addressed to Dr. Carl B. Pilcher, Office

of Space Science, Code SZ; NASA Headquarters; 300 E Street, SW., Washington, DC 20546-0001. In addition, electronic comments may be sent to Dr. Carl B. Pilcher at [otpeis@nasa.gov](mailto:otpeis@nasa.gov) or by hardcopy facsimile at 202-358-3096.

**FOR FURTHER INFORMATION CONTACT:** Dr. Carl B. Pilcher, at telephone 877-283-1977 (toll-free), electronically at [otpeis@nasa.gov](mailto:otpeis@nasa.gov), or by hardcopy facsimile at 202-358-3096.

**SUPPLEMENTARY INFORMATION:** The OTP is a key element in NASA's Origins Program. The Origins Program addresses two fundamental questions: (1) How do galaxies, stars, and planets form? (*i.e.*, "Where do we come from?"); and (2) Are there planets, aside from ours, that have the conditions necessary to support life? (*i.e.*, "Are we alone?"). The OTP has four scientific objectives that contribute to achieving the goals of the Origins Program:

- Detect the "wobble" of stars due to the gravity of unseen orbiting planetary companions as small as Uranus.
- Make images of disks of gas and dust surrounding young stars and stars that are still forming.
- Make high-resolution images of faint objects outside our galaxy.
- Make high-resolution images of objects within our solar system, including asteroids, comets, and outer planets.

The first of these four objectives can be accomplished with the Outrigger Telescopes alone linked together as an interferometer. (An interferometer combines the light from two or more separate telescopes so that they act like one big telescope.) The last three objectives require that the Outrigger Telescopes be linked as an interferometer to at least one 8-meter or larger telescope.

NASA proposes to fund the OTP at the W.M. Keck Observatory (WMKO) site located within the Astronomy Precinct of the Mauna Kea Science Reserve on the Island of Hawaii. WMKO is the site of the two largest optical telescopes in the world—the twin 10-meter Keck I and Keck II. The OTP, if fully implemented as proposed, would consist of up to six 1.8-meter (72-inch) telescopes placed strategically around the two existing Keck Telescopes.

The California Association for Research in Astronomy (CARA), a non-profit corporation established by the University of California and California Institute of Technology (Caltech), operates and maintains the WMKO. The approximately 2-hectare (5-acre) WMKO site is subleased to Caltech by the University of Hawaii (UH). The WMKO

site is located within the Astronomy Precinct (approximately 212 hectares (525 acres)) of the Mauna Kea Science Reserve. The 4,500 hectare (11,000 acre) Science Reserve, is leased to UH by the State of Hawaii.

Because of present funding constraints, only four Outrigger Telescopes would initially be installed and operated, although the foundations for six would be constructed. It is anticipated that the on-site construction and installation of four of the six Outrigger Telescopes, along with on-site construction of the underground structures for Telescopes 5 and 6, would begin early in 2005, with initial operations anticipated in 2006. If funding were available, NASA would intend to complete the on-site construction, installation, and operation of Telescopes 5 and 6, with on-site construction and installation likely to begin no earlier than 2006.

In addition to the WMKO site, alternative sites with at least one existing 8-meter or larger telescope will be considered in the EIS. If NASA decides not to or cannot implement the OTP at the WMKO site or a reasonable alternative site with an existing 8-meter or larger optical telescope, NASA would consider sites where at least the one objective that does not require such a large telescope (*i.e.*, the survey of stars for "wobble" due to the gravity of unseen orbiting planetary companions as small as Uranus) can be achieved. Alternative sites to be considered in the EIS under such a materially reduced science OTP option will include, but not necessarily be limited to, the Mt. Wilson Observatory in Los Angeles County, California, and the Navy Prototype Optical Interferometer (NPOI) site near Flagstaff, Arizona. The No Action alternative will also be addressed.

The EIS will analyze the potential environmental impacts associated with the on-site construction, installation, and operation of the Outrigger Telescopes at the WMKO site and other reasonable alternative sites. The potential environmental impacts at alternative sites for the materially reduced science OTP option will also be evaluated. Environmental issues to be emphasized will include, but not necessarily be limited to, cultural resources, flora and fauna, sewage, and cumulative impacts.

Because it is evident that there is substantial environmental controversy and concern about locating the Outrigger Telescopes on Mauna Kea, public scoping meetings will be held in the State of Hawaii on the following dates:

(a) January 5, 2004, King Kamehameha Beach Hotel; 75-5660 Palani Road, Kailua-Kona, Hawaii 96740 (paid parking at the hotel will be free for attendees);

(b) January 7, 2004, Hawaii Naniloa; 93 Banyan Drive, Hilo, Hawaii 96720 (parking is free);

(c) January 8, 2004, Waimea YMCA; 67-1435 Mamalahoa Hwy., Kamuela, Hawaii 96743 (parking is free);

(d) January 12, 2004, Japanese Cultural Center; 2554 South Beretania Street, Honolulu, Hawaii 96826 (paid parking at the Cultural Center will be free for attendees);

(e) January 13, 2004, Wai-Anae District Park; 85-601 Farrington Highway, Wai-anae, Hawaii 96792 (parking is free).

All of the meetings will begin with an informal open house from 5:15 to 6:15 p.m. The formal meetings to listen to public comments and concerns will begin at 6:30 p.m. NASA is planning to have a Hawaiian language translator at all of the meetings.

NASA will also consider conducting public scoping meetings near reasonable alternative sites in the United States as Wilson and NPOI sites, if there is sufficient public environmental interest and concern.

Written public input and comments on alternatives and environmental issues and concerns associated with the OTP are hereby requested.

**Olga M. Dominguez,**  
Deputy Assistant Administrator for  
Management Systems.

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Agency Information Collection Activities: Submission for OMB Review; Comment Request

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice.

**SUMMARY:** NARA is giving public notice that the agency has submitted to OMB for approval the information collection described in this notice. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted to OMB at the address below on or before January 29, 2004, to be assured of consideration.

**ADDRESSES:** Comments should be sent to: Office of Information and Regulatory

Affairs, Office of Management and Budget, Attn: Mr. Jonathan Womer, Desk Officer for NARA, Washington, DC 20503.

#### FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-837-3213.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on October 1, 2003 (68 FR 56652 and 56653). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology. In this notice, NARA is soliciting comments concerning the following information collection:

*Title:* Contractor/Agency Reviewer Identification Badge Authorization.

*OMB number:* 3095-NEW.

*Agency form number:* NA Form 6000B.

*Type of review:* Regular.

*Affected public:* Business or for-profit, Federal government.

*Estimated number of respondents:* 600.

*Estimated time per response:* 3 minutes.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 30 hours.

**Abstract:** The collection of information is necessary as a security measure to protect employees, information, and property in NARA facilities, and to facilitate the issuance of badges and cards. Use of the form is authorized by 44 U.S.C 2104. At the NARA College Park facility, individuals receive a proximity card with the identification badge that is electronically coded to permit access to

secure zones ranging from a general nominal level to stricter access levels for classified records zones. The proximity card system is part of the security management system that meets the accreditation standards of the Government intelligence agencies for storage of classified information and serves to comply with E.O. 12958.

Dated: December 19, 2003.

**L. Reynolds Cahoon,**

*Assistant Archivist for Human Resources and Information Services.*

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Office of Presidential Libraries; Proposed Disposal of Superseded Version of Clinton Administration Electronic Mail Records

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Presidential Records Act notice of proposed disposal of superseded version of Clinton Administration electronic mail records; request for public comment.

**SUMMARY:** The National Archives and Records Administration (NARA) has identified an incomplete version of Presidential records on electronic media, housed at the National Archives at College Park, Maryland facility, as appropriate for disposal under the provisions of 44 U.S.C. 2203(f)(3). This notice describes the records and our reasons for determining that the records have insufficient administrative, historical, informational, or evidentiary value to warrant their continued preservation, in light of the fact that NARA is maintaining a comprehensive set of the same records on a different set of electronic media. NARA will review timely public comments received on this notice before making a final determination on the disposal of the records.

This notice does not constitute a final agency action, as described in 44 U.S.C. 2203(f)(3), and no Presidential records will be disposed of following this notice. NARA will publish a second notice only after it has considered any comments received during this 45-day notice. The second, 60-day notice will constitute a final agency action, in the event NARA proceeds with disposal.

**DATES:** Comments must be received by February 13, 2004.

**ADDRESSES:** Comments regarding the proposed disposal of these Presidential records must be sent in writing to the
