DEPARTMENT OF LABOR

Bureau of Labor Statistics

Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed new collection of the "Current Population Survey (CPS) Volunteer Supplement." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the addresses section of this notice on or before July 23, 2002.

ADDRESSES: Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE.,

Washington, DC 20212, telephone number 202-691-7628 (this is not a toll free number).

FOR FURTHER INFORMATION CONTACT:

Amy A. Hobby, BLS Clearance Officer, telephone number 202-691-7628. (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

The September 2002 CPS Volunteer Supplement will be conducted at the request of the USA Freedom Corps. The Volunteer Supplement will provide information on the total number of individuals in the U.S. involved in unpaid volunteer activities, factors that motivate volunteerism, measures of the frequency or intensity with which individuals volunteer, types of organizations that facilitate volunteerism, and activities in which volunteers participate.

Because the Volunteer Supplement is part of the CPS, the same detailed demographic information collected in the CPS will be available on respondents to the Supplement. Comparisons of volunteer activities will be possible across characteristics such as sex, race, age, and educational attainment of the respondent. It is intended that the Supplement will be conducted with some regularity in order to gauge changes in volunteerism.

II. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Action

Office of Management and Budget clearance is being sought for the CPS Volunteer Supplement.

NUCLEAR REGULATORY COMMISSION

[License No. 50-483, Docket No. NPF-30, EA-01-005]

In the Matter of AmerenUE, Callaway Nuclear Plant; Order Imposing Civil Monetary Penalty

I

AmerenUE (Licensee) is the holder of License No. NPF-30 issued by the Nuclear Regulatory Commission (NRC or Commission) on October 18, 1984. The license authorizes the Licensee to operate the Callaway Nuclear Plant in accordance with the conditions specified therein.

II

An investigation of the Licensee's activities was completed in November 2000. The results of the investigation indicated that the Licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon the Licensee by letter dated May 14, 2001. The Notice stated the nature of the violation, the provisions of the NRC's requirements that the Licensee had violated, and the amount of the civil penalty proposed for the violation.

The Licensee responded to the Notice in a letter dated January 22, 2002. In its response, the Licensee denied the violation, requesting withdrawal of the violation and remission of the proposed civil penalty.

III

After consideration of the Licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the NRC staff has determined that the violation occurred as stated in the May 14, 2001 Notice of Violation and Proposed Imposition of Civil Penalty. Therefore, the NRC has determined that the civil penalty proposed for this violation should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, *It is hereby ordered that:*

The Licensee pay a civil penalty in the amount of \$55,000 within 30 days of the date of this Order, in accordance with NUREG/BR-0254. In addition, at the time of making the payment, the licensee shall submit a statement indicating when and by what method payment is made, to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738.

V

The Licensee may request a hearing within 30 days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension. A request for a hearing should be clearly marked as a "Request for an Enforcement Hearing" and shall be submitted to the Secretary, U.S. Nuclear Regulatory Commission, ATTN: Rulemakings and Adjudications Staff, Washington, DC 20555. Copies also shall be sent to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, to the Assistant General Counsel for Materials Litigation and Enforcement at the same address, and to the Regional Administrator, NRC Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011.

If a hearing is requested, the Commission will issue an Order designating the time and place of the hearing. If the Licensee fails to request a hearing within 30 days of the date of this Order (or if written approval of an extension of time in which to request a hearing has not been granted), the provisions of this Order shall be effective without further proceedings. If payment has not been made by that time, the matter may be referred to the Attorney General for collection.

In the event the Licensee requests a hearing as provided above, the issues to be considered at such hearing shall be: Whether the Licensee was in violation of the Commission's requirements as set forth in the Notice of Violation referenced in Section II, and whether on the basis of such violation, this Order should be sustained.

Dated this 16th day of May, 2002.

For the Nuclear Regulatory Commission.

William F. Kane,

Deputy Executive Director for Reactor Programs.

Appendix to Order Imposing Civil Penalty; NRC Evaluation and Conclusion of Licensee's Requests

On May 14, 2001, a Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was issued for a violation of 10 CFR 50.7 identified during an NRC investigation. The Licensee responded to the Notice in a letter dated January 22, 2002. In its response, the Licensee denied the violation, requesting withdrawal of the violation and remission of the proposed civil penalty. The NRC's evaluation and conclusion regarding the licensee's response are as follows:

Restatement of Violation

10 CFR 50.7(a) prohibits discrimination by a Commission licensee against an employee for engaging in certain protected activities. Discrimination includes discharge or other actions relating to the compensation, terms, conditions, and privileges of employment. Under 10 CFR 50.7(a)(1)(i), the activities that are protected include, but are not limited to, the reporting by an employee to his employer information about alleged regulatory violations.

Contrary to the above, The Wackenhut Corporation (TWC), a contractor of Union Electric, a 10 CFR part 50 licensee, and Union Electric discriminated against a security officer and a training instructor for having engaged in protected activity. Specifically, on October 27, 1999, the security officer and the training instructor identified to TWC a violation of NRC requirements at the Callaway Nuclear Plant, namely that TWC had hired and assigned an individual to the security organization when that individual did not have a high school diploma or equivalent. The hiring of this individual was in violation of 10 CFR part 73, Appendix B, Section I.A.1.a, which provides that prior to employment or assignment to a security organization, an individual must possess a high school diploma or pass an equivalent performance examination. Based at least, in part, on this protected activity, TWC unfavorably terminated the security officer's employment for lack of trustworthiness and gave a written reprimand to the training instructor on November 19, 1999, and Union Electric revoked the security officer's unescorted access authorization for lack of trustworthiness.
