

validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advise the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class. The Subcommittee for Dose Reconstruction Reviews was established to aid the Advisory Board in carrying out its duty to advise the Secretary, HHS, on dose reconstruction.

Matters To Be Discussed: The agenda for the Subcommittee meeting includes: revisiting the Board's dose reconstruction review process; dose reconstruction program quality management and assurance activities, including an overview of contractor quality management system and an update on the results of NIOSH internal dose reconstruction blind reviews; dose reconstruction issues from NIOSH 10-year review, including review of resource impact of possible changes to efficiency process and plans for a NIOSH Division of Compensation Analysis and Support claimant favorability analysis; discussion of dose reconstruction cases under review (sets 8–9, cases with Category A findings from sets 10–13, Savannah River Site cases from sets 10–13); and pre-selection of set 16 dose reconstruction cases to be reviewed by the Board's technical support contractor.

The agenda is subject to change as priorities dictate.

In the event an individual cannot attend, written comments may be submitted. Any written comments received will be provided at the meeting and should be submitted to the contact person below well in advance of the meeting.
