II. What is the background for this proposed action?

The Ameren Sioux facility is located in St. Charles County, Missouri, along the Mississippi River, just north of the City of St. Louis. The EPA designated the area surrounding Ameren Sioux as attainment/unclassifiable for the 2010 1-hour SO₂ NAAQS in early 2018 (83 FR 1098, January 9, 2018). Unlike with a nonattainment designation, a designation of attainment/unclassifiable does not impose any new SO₂ planning requirements on the Missouri Department of Natural Resources (MoDNR) for Ameren Sioux in Missouri’s SIP.

Ameren Sioux operates two coal-fired boilers that generate electricity for use in the region. In 2010, Ameren Sioux installed wet flue-gas desulfurization control technology at their two boilers. The existing enforceable SO₂ emissions limit in the Missouri SIP for Sioux is much higher than recent actual emissions and therefore does not reflect operation of the control technology. This control technology reduced the actual SO₂ emissions at Ameren Sioux by nearly 90 percent.

Ameren Sioux is required to operate a continuous emission monitoring system (CEMS) for SO₂ on both of their boilers.¹ This allows for the reporting of actual hourly emissions levels coming from the two boilers at the facility. The Consent Agreement included in this proposed SIP revision also requires the use of their CEMS to demonstrate compliance with the additional enforceable limit in the Consent Agreement.

III. Have the requirements for approval of a SIP revision been met?

The State submission has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The State provided public notice on this SIP revision from December 27, 2021 to February 3, 2022 and received one comment. In addition, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

IV. What did Missouri submit in the source-specific SIP revision for Ameren Sioux?

The SO₂ emissions limit and averaging time included in the Consent
