Notice of Intent To Prepare a Draft Supplemental Environmental Impact Statement for the Meramec River Enhancement and Wetlands Protection Project

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This document advises the public that the U.S. Environmental Protection Agency intends to develop a Draft Supplemental Environmental Impact Statement (DSEIS). The DSEIS will update a 1979 FEIS in order to re-evaluate the Federal actions relating to a proposed regionalization of wastewater treatment services within the Meramec River Basin in Missouri. The DSEIS will assist EPA in identifying and documenting the existing baseline environmental conditions in the project area, forecasting reasonably expected development within the basin, and analyzing alternatives with which to fulfill the wastewater treatment needs of the Meramec Basin. This assessment will be subsequently used to determine the environmental consequences of the proposed project and the significance of those consequences. The associated actions are: (1) Provision of grant funding to MSD for the construction of a Regional Wastewater Treatment Plant; (2) Identifying all required Federal permits, licences and entitlements.
