

Transmittal No. 08-10**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The PATRIOT Air Defense System contains critical/sensitive technology and classified Confidential components. The Configuration 3 upgrade represents significant technological advances for the existing PATRIOT system capabilities. The Configuration 3 sensitive/critical technology is primarily in the area of design and production know-how and primarily inherent in the design, development, and/or manufacturing data related to certain critical components. Information on operational effectiveness with respect to electronic countermeasures and counter-counter measures, low observable technologies, select software documentation and test data are classified up to and including Secret.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

POLICY JUSTIFICATION

Kuwait - Technical/Logistics Support for F/A-18 Aircraft

The Government of Kuwait has requested a possible sale of continuing logistics support, contractor maintenance, and technical services in support of the F/A-18 aircraft to include contractor engineering technical services, contractor maintenance support, avionics software, engine component improvement and spare parts, technical ground support equipment, spare and repair parts, supply support, publications and technical data, engineering change proposals, U.S. Government and contractor technical and logistics personnel services and other related elements of program support. The estimated cost is \$90 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait needs this logistics support, contractor maintenance, and technical services to maintain the operational capabilities of its aircraft.

The contractor maintenance and training technical services will not alter the basic military balance in the region.

The principal contractors are: Boeing Company of St. Louis, Missouri; and General Dynamics of Fairfax, Virginia. Although the purchaser generally requires offsets, at this time, there are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
