II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “NRC Form 244, “Registration Certificate—Use of Depleted Uranium Under General License.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on May 27, 2022, 87 FR 32197.

1. *The title of the information collection*: “NRC Form 244, “Registration Certificate—Use of Depleted Uranium Under General License.””
2. *OMB approval number*: 3150–0031.
3. *Type of submission*: Extension.
4. *The form number, if applicable*: Form 244.
5. *How often the collection is required or requested*: On occasion.

6. *Who will be required or asked to respond*: Persons who receive, acquire, possess, or use depleted uranium.

7. *The estimated number of annual responses*: 20.6.

8. *The estimated number of annual respondents*: 20.6.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: 11.7 (8.3 reporting + 1.4 recordkeeping + 2 third-party disclosure).

10. *Abstract*: The NRC regulations in part 40 of title 10 of the *Code of Federal Regulations*, establishes requirements for the receipt, possession, use and transfer of radioactive source and byproduct materials. Section 40.25 established a general license authorizing the use of depleted uranium contained in industrial products or devices for the purpose of providing a concentrated mass in a small volume of the product or device. The NRC Form 244 is used to report the receipt and transfer of depleted uranium, as required by § 40.25. The registration information required by the NRC Form 244 enables the NRC to make a determination on whether the possession, use, or transfer of depleted uranium source and byproduct material is in conformance with the NRC’s regulations for the protection of public health and safety. General licensees can also use NRC Form 244 to update any of the information contained in the form, once the form is authorized by the NRC.

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review, Request for Comments

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Railroad Retirement Board (RRB) is forwarding an Information Collection Request (ICR) to the Office of Information and Regulatory Affairs (OIRA), Office of Management and Budget (OMB). Our ICR describes the information we seek to collect from the public. Review and approval by OIRA ensures that we impose appropriate paperwork burdens.

The RRB invites comments on the proposed collections of information to determine (1) the practical utility of the collections; (2) the accuracy of the estimated burden of the collections; (3) ways to enhance the quality, utility, and clarity of the information that is the subject of collection; and (4) ways to minimize the burden of collections on respondents, including the use of automated collection techniques or other forms of information technology. Comments to the RRB or OIRA must contain the OMB control number of the ICR. For proper consideration of your comments, it is best if the RRB and OIRA receive them within 30 days of the publication date.

1. *Title and purpose of information collection*: Employer Reporting; 3220-0005.

Under section 9 of the Railroad Retirement Act (RRA) (45 U.S.C. 231h), and section 6 of the Railroad Unemployment Insurance Act (RUIA)

(45 U.S.C. 356), railroad employers are required to submit reports of employee service and compensation to the RRB as needed for administering the RRA and RUIA. To pay benefits due on a deceased employee's earnings records or determine entitlement to, and amount of annuity applied for, it is necessary at times to obtain from railroad employers current (lag) service and compensation not yet reported to the RRB through the annual reporting process. The reporting requirements are specified in 20 CFR 209.6 and 209.7.

The RRB currently utilizes the following forms to collect information to obtain the required lag service and related information from railroad employers: Form AA-12, *Notice of Death and Request for Service Needed for Eligibility*, Form G-88A.1 (or its internet equivalent, Form G-88A.1 (internet)), *Request for Verification of Date Last Worked*, and Form G-88A.2 (or its internet equivalent, Form G-88A.2 (internet)), *Notice of Retirement and Request for Service Needed for Eligibility*. Form AA-12 obtains a report of lag service and compensation from the last railroad employer of a deceased employee. This report covers the lag period between the date of the latest record of employment processed by the RRB and the date an employee last worked, the date of death or the date the employee may have been entitled to benefits under the Social Security Act. The information is used by the RRB to determine benefits due on the deceased employee's earnings record. Form G-88A.1 is sent by the RRB via a computer-generated listing or transmitted electronically via the RRB's Employer Reporting System (ERS) to employers. ERS consists of a series of screens with completion instructions and collects essentially the same information as the approved manual version. Form G-88A.1 is used for the specific purpose of verifying information previously provided to the RRB regarding the date last worked by an employee. If the information is correct, the employer need not reply. If the information is incorrect, the employer is asked to provide corrected information. Form G-88A.2 is used by the RRB to secure lag service and compensation information when it is needed to determine benefit eligibility.

In addition, 20 CFR 209.12(b) requires all railroad employers to furnish the RRB with the home addresses of all employees hired within the last year (new-hires). Form BA-6a, *Form BA-6 Address Report* (or its internet equivalent, Form BA-6a (internet)) is used by the RRB to obtain home address information of employees from railroad
