

Breakfast Program, the Child and Adult Care Food Program, and the Summer Food Service Program by, determining the contribution a commercial product makes towards the meal pattern requirements. Legislative authority for the programs is covered under The National School Lunch Act (NSLA); Public Law 90–302 enacted in 1968 amended the NSLA establishing the Special Food Service Program for Children. In 1975 Congress separated the Child Care Food Program and Summer Food Service components of the SFAPFC and provided each with legislative authorization.

The Child Nutrition Labeling Program is implemented in conjunction with existing label approval programs administered by the Food Safety and Inspection Service (FSIS), and the U.S. Department of Commerce (DoC). To participate in the CN Labeling Program, industry submits labels to AMS of products that are in conformance with the FSIS label approval program (for meat and poultry), and the DoC label approval program (for seafood products).

Need and Use of the Information: AMS uses the information collected to aid school food authorities and other institutions participating in child nutrition programs in determining the contribution a commercial product makes towards the established meal pattern requirements. AMS uses all of the collected information to give the submitted label an approval status that indicates if the label can be used as part of the CN Labeling Program. Without the information CN Labeling Program would have no basis on which to determine how or if a product meets the meal pattern requirements.
