Federal Highway Administration

Placer Parkway Partially Revised Draft Tier I Environmental Impact Statement

DATE: January 2009.

AGENCY: United States Department of Transportation, Federal Highway Administration.

ACTION: Notice of Availability (NOA) of the Placer Parkway Partially Revised Draft Tier I Environmental Impact Statement (EIS).

SUMMARY: The Federal Highway Administration (FHWA) is issuing this notice to advise the public of the availability of a Partially Revised Draft Tier 1 EIS for the Placer Parkway Corridor Preservation Project, a proposed transportation corridor in western Placer and eastern Sutter Counties, California. Specifically, the action being considered and evaluated is to select and preserve a 500- to 1,000-foot-wide corridor in the project study area, within which the future four- or six-lane Placer Parkway may be constructed. Placer Parkway is intended to reduce anticipated congestion on both the local and regional transportation system and to advance economic development goals in south Sutter County and southwestern Placer County.

Five corridor build alternatives and a no-build alternative are evaluated in the Draft Tier 1 EIS. Although the Parkway would be designed and construction-level impacts analyzed during Tier 2, for the purpose of the Draft Tier 1 EIS, several assumptions have been made about potential design and configuration concepts. These assumptions would be subject to further development and refinement, and specific decisions about design of the roadway would be made during the Tier 2 process. The Parkway would be a high-speed, limited access roadway. Conceptually, interchanges would be located at SR 70/99 (at one-half mile north of Riego Road or at Sankey Road), one or two locations to be determined in southern Sutter County,

Fiddymment Road, Foothills Boulevard, and SR 65 at Whitney Ranch Parkway. Access would be restricted for the 7-mile segment between Pleasant Grove Road and Fiddymment Road. The Draft Tier 1 EIS assumes no interchanges in this segment.

Revisions to the Draft Tier 1 EIS and Additional Analyses in the Partially Revised Draft Tier 1 EIS: The Partially Revised Draft Tier 1 EIS serves as a supplement to the Draft Tier 1 EIS issued in June 2007, to reflect additional analyses developed since the publication of the prior draft. The Partially Revised Draft Tier 1 EIS provides revisions to the Draft Tier 1 EIS, including updates to farmland classification data and greenhouse gas emissions. It also includes additional analyses of growth inducement, secondary and indirect impacts and cumulative impacts based on hypothetical future scenarios prepared for the U.S. Environmental Protection Agency and the U.S. Army Corps of Engineers.

Public Review and Comment Period: Comments regarding the Partially Revised Draft Tier 1 EIS shall be accepted beginning on January 30, 2009 and must be submitted in writing by 5 p.m. on March 15, 2009 to Placer County Transportation Planning Agency (PCTPA) via regular mail to PCTPA, Attention: Celia McAdam, Executive Director, 299 Nevada St., Auburn, California 95603, or via e-mail to pctpap@pctpap.net.

Background: The FHWA, in cooperation with the California Department of Transportation (Caltrans), Sutter County, and the South Placer Regional Transportation Authority (SPRTA), prepared a Partially Revised Draft Tier 1 EIS on a proposal to select and preserve a corridor for the future construction of Placer Parkway, a new east-west roadway linking State Route (SR) 70/99 in Sutter County east to SR

65 in Placer County. Placer Parkway is intended to reduce anticipated congestion on both the local and regional transportation system and to advance economic development goals in south Sutter County and southwestern Placer County.

Specifically, the action being considered and evaluated by FHWA, Caltrans and SPRTA is to select and preserve a 500- to 1,000-foot-wide corridor in the project study area, within which the future four- or six-lane Placer Parkway may be constructed. Five or six interchanges are proposed, depending on the corridor alignment alternative.

The proposed Parkway project is identified in the Sacramento Council of Government's (SACOG) 2025 Metropolitan Transportation Plan (MTP) and the 2022 Placer County Regional Transportation Plan. The planning for Placer Parkway involves two phases: (1) The present action, selection of a corridor (titled the Placer Parkway Corridor Preservation Project), and (2) the future selection of a precise alignment within the corridor and a decision whether or not to build the Parkway. If a build alternative is selected and pursued after the second phase, the ultimate Placer Parkway project would be constructed and operated. Each phase will be subject to its own environmental review, a process known as "tiered" environmental review under both state and federal law. The selection of a corridor is the subject of the Tier 1 EIS.

The Placer Parkway Corridor Preservation Draft Tier 1 EIS was completed on June 29, 2007. It was circulated for public comment on July 2, 2007. The comment period ended on September 10, 2007. To the degree feasible, the Draft Tier 1 EIS reviewed the reasonably foreseeable environmental effects of the construction and operation of the Parkway. Selection of a more precise alignment within the corridor, and construction and operation of the Parkway, will be the subject of a later Tier 2 environmental document.

The Revised Draft Tier 1 EIS serves as a supplement to the Draft Tier 1 EIS issued in June 2007, to reflect additional analyses developed since the publication of the prior draft. The Revised Draft Tier 1 EIS provides revisions to the Draft Tier 1 EIS, including updates to farmland classification data, and greenhouse gas emissions. It also includes additional analyses of growth inducement, secondary and indirect impacts and cumulative impacts based on hypothetical future scenarios prepared

for the U.S. Environmental Protection Agency and the U.S. Army Corps of Engineers.

To ensure that a full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action should be directed to the FHWA at the address provided above or to Celia McAdam, Executive Director, PCTPA, 299 Nevada Street, Auburn, CA 95603, no later than March 8, 2009.

The public, as well as agencies and local jurisdictions, are also invited to comment on the Partially Revised Draft Tier 1 EIS at either of two public hearings:

- February 23, 2009—6 p.m. at the Veterans Memorial Community Building, 1425 Veterans Memorial Circle in Yuba City, California.
- February 25, 2009—10:45 a.m. at the Placer County Board of Supervisors Chambers (The Domes), 175 Fulweiler Avenue, Auburn, CA 95603.

Federal Railroad Administration

[Docket No. FRA-2009-0009]

Establishment of an Emergency Relief Docket for Calendar Year 2009

AGENCY: Federal Railroad Administration (FRA), DOT.

ACTION: Notice of establishment of public docket.

SUMMARY: This Notice announces the establishment of FRA's emergency relief docket (ERD) for calendar year 2009. The designated ERD for calendar year 2009 is docket number FRA-2009-0009.

ADDRESSES: See **SUPPLEMENTARY INFORMATION** section for further information regarding submitting petitions and/or comments to Docket No. FRA-2009-0009.

SUPPLEMENTARY INFORMATION: On April 9, 2007, FRA published a final rule addressing the establishment of ERDs and the procedures for handling petitions for emergency waivers of safety rules, regulations, or standards during an emergency situation or event. 72 FR 17433. That final rule added § 211.45 to the FRA's Rules of Practice published at 49 CFR Part 211. Paragraph (b) of § 211.45 provides that each calendar year FRA will establish an ERD in the publicly accessible DOT docket system (available on the internet at <http://www.regulations.gov>). Paragraph (b) of § 211.45 further provides that FRA

will publish a notice in the **Federal Register** identifying by docket number the ERD for that year. As noted in the final rule, FRA's purpose for establishing the ERD and emergency waiver procedures is to provide an expedited process for FRA to address the needs of the public and the railroad industry during emergency situations or events. This Notice announces that the designated ERD for calendar year 2009 is docket number FRA-2009-0009.

As detailed § 211.45, if the FRA Administrator determines that an emergency event as defined in 49 CFR 211.45(a) has occurred, or that an imminent threat of such an emergency occurring exists, and public safety would benefit from providing the railroad industry with operational relief, the emergency waiver procedures of 49 CFR 211.45 will go into effect. In such an event, the FRA Administrator will issue a statement in the ERD indicating that the emergency waiver procedures are in effect and FRA will make every effort to post the statement on its Web site <http://www.fra.dot.gov/>. Any party desiring relief from FRA regulatory requirements as a result of the emergency situation should submit a petition for emergency waiver in accordance with 49 CFR 211.45(e) and (f). Specific instructions for filing petitions for emergency waivers in accordance with 49 CFR 211.45 are found at 49 CFR 211.45(f). Specific instructions for filing comments in response to petitions for emergency waivers are found at 49 CFR 211.45(h).
