

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, the Bureau of Reclamation (Reclamation) proposes to prepare an environmental impact statement (EIS) to evaluate impacts of altering existing operations at Banks Lake to provide for an annual drawdown of up to 10 feet from full pool to enhance flows in the Columbia River during the juvenile out migration of salmonid stocks listed under the Endangered Species Act. The proposed drawdown would occur in August and the elevation of the surface water would remain constant from August 31st through December 31st. This action would constitute a change in existing operations, although it is within existing operating authorization. The proposed drawdown is being evaluated in response to Action item 31 of the Federal Columbia River Power System (FCRPS) Biological Opinion issued by the National Marine Fisheries Service on December 21, 2000.

DATES: A scoping meeting to identify issues to be evaluated in the EIS will be held at:

- Coulee City, WA: May 15, 2001, 7 to 9 p.m.

Written comments will be accepted through May 31, 2001 for inclusion in the scoping summary document. Requests for sign language interpretation for the hearing impaired or other auxiliary aids should be submitted to Jim Blanchard as indicated under **ADDRESSES** by May 8, 2001.

ADDRESSES: Comments and requests to be added to the mailing list may be submitted to Bureau of Reclamation, Ephrata Field Office, Attention: James Blanchard, 32 C Street, Box 815, Ephrata, WA 98823.

The scoping meeting will be held at the following location:

- Coulee City Middle School Gym, 312 E. Main Street, Coulee City, WA.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of

organizations or businesses, available for public disclosure in their entirety.

FOR FURTHER INFORMATION CONTACT:

James Blanchard, Bureau of Reclamation, telephone: (509) 754-0226, fax: (509) 754-0239. The hearing impaired may contact Mr. Blanchard at the above number via a toll free TTY relay: (800) 833-6388. The meeting facilities are physically accessible to people with disabilities. Please direct requests for sign language interpretation for the hearing impaired, or other special needs, to James Blanchard at the telephone numbers indicated above by May 8, 2001.

SUPPLEMENTARY INFORMATION:

Background

Banks Lake is operated as a re-regulation reservoir for the Columbia Basin Project (CBP). The reservoir is approximately 27 miles long and contains slightly more than one million acre feet of water at full pool. The water supply for the reservoir is stored behind Grand Coulee Dam and is lifted from Franklin Delano Roosevelt Reservoir into Banks Lake. Water is delivered into the Main Canal at Dry Falls Dam on the southern end of Banks Lake and from there delivered to approximately 670,000 acres. This is just over 1/2 of the authorized lands for the CBP. Although Reclamation is currently authorized to operate the reservoir down to 5 feet below full pool, for the past 5 years it has been operated at close to full pool throughout the year to increase the generating capability of the pump/generators at Grand Coulee. Previous operations were within the top two feet of full pool during irrigation season and then drawing the reservoir level down five feet during the non-irrigation season.

Action 31 of the FCRPS Biological Opinion calls for the assessment of operation of Banks Lake at up to 10 feet below full pool beginning in August of each year. Refill would occur from January through April. The reduction of pumping into Banks Lake will increase the amount of water available to support endangered salmonid stocks in the Columbia River.

Public Involvement

Reclamation is requesting public comment to help identify the significant issues and reasonable alternatives to be addressed in the EIS. Reclamation will summarize comments received during the scoping meeting and from letters of comment received during the scoping period, identified under **DATES**, into a scoping summary document. This scoping summary will be sent to all who

responded during the scoping period, and also will be made available to the public upon request.

Dated: April 19, 2001.

J. Eric Glover,

Acting Regional Director, Pacific Northwest Region.

BILLING CODE 4310-MN-P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

**Importer of Controlled Substances;
Notice of Registration**

By notice dated August 18, 2000, and published in the **Federal Register** on September 6, 2000, (65 FR 54071) Salsbury Chemicals, Inc., 1205 11th Street, Charles City, Iowa 50616-3466, made application to the Drug Enforcement Administration (DEA) to be registered as an importer of phenylacetone (8501), a basic class of controlled substance listed in Schedule II.

The firm plans to import phenylacetone to manufacture amphetamine for distribution to its customers.

No comments or objections have been received. DEA has considered the factors in title 21, United States Code, section 823(a) and determined that the registration of Salsbury Chemicals, Inc. is consistent with the public interest and with United States obligations under international treaties, conventions, or protocols in effect on May 1, 1971, at this time. DEA has investigated Salsbury Chemicals, Inc. to ensure that the company's continued registration is consistent with the public interest. This investigation included inspection and testing of the company's physical security systems, verification of the Company's compliance with state and local laws, and a review of the company's background and history. Therefore, pursuant to section 1008(a) of the Controlled Substances Import and Export Act and in accordance with title 21, Code of Federal Regulations, section 1301.34, the above firm is granted registration as an importer of the basic class of controlled substance listed above.

Dated: April 13, 2001.

Laura M. Nagel,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.
