SUPPLEMENTARY INFORMATION: The Pinedale Anticline Working Group (PAWG) was authorized and established with release of the Record of Decision (ROD) for the Pinedale Anticline Oil and Gas Exploration and Development Project on July 27, 2000. After the ROD was issued, Interior determined that a Federal Advisory Committees Act (FACA) charter was required for this group. PAWG members were appointed by Secretary Norton on May 4, 2004.

At their second business meeting, the PAWG established seven resource- or activity-specific Task Groups, including one for Transportation. Public participation on the Task Groups was solicited through the media, letters, and word-of-mouth.

The agenda for this meeting will include information gathering and discussion related to developing a transportation monitoring plan to assess the impacts of development in the Pinedale Anticline gas field, and identifying who will do and who will pay for the monitoring. Task Group recommendations are due to the PAWG in February, 2005. At a minimum, public comments will be heard just prior to adjournment of the meeting.
