DATES: An emergency review has been requested in accordance with the Act (44 U.S.C. chapter 3507(j)), since public harm is reasonably likely to result if normal clearance procedures are followed. Approval by the Office of Management and Budget (OMB) has been requested by May 31, 2011. A regular clearance process is also beginning. Interested persons are invited to submit comments on or before June 27, 2011.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that the Director of OMB provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The Office of Management and Budget (OMB) may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management, publishes this notice containing proposed information collection requests at the beginning of the Departmental review of the information collection. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. ED invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will

this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on respondents, including through the use of information technology.

Abstract: In order to fulfill our responsibilities for programmatic oversight and public reporting, the Department has developed a Race to the Top Annual Performance Report that is tied directly to the Race to the Top selection programmatic requirements previously established and published in the **Federal Register**. The report is grounded in the key performance targets included in grantees' approved Race to the Top plans. Grantees will be required to report on their progress in the four core education reform areas: Science, Technology, Engineering, and Mathematics. This reporting includes narrative sections on progress and key performance indicators. As was the case in the completion of the Race to the Top applications, grantees will coordinate with Local Educational Agencies (LEAs) to collect and report on school and district-level data elements.

In order to robustly fulfill our programmatic and fiscal oversight responsibilities, it is essential that we gather this data from Race to the Top grantees and subgrantees as soon as possible to inform decision-making for the second year of the grant. The Race to the Top Annual Performance Report data will be used as a component of the comprehensive program review process (for which the comment period just closed). In particular, the data informs both a stocktake (meeting) with Race to the Top leadership that will be focused on assessing grantee progress and pinpointing areas requiring technical
