

relied upon for product certification. The Agency does not consider these programs in determining whether an NRTL meets the requirements for recognition under 29 CFR 1910.7. However, OSHA treats these programs as one of the three elements that define an NRTL's scope of recognition. OSHA previously recognized SGS for these programs. As a result, we do not list them again in this final notice, but merely provide this information as a matter of public interest.

Conditions

In addition to those conditions already required by 29 CFR 1910.7, SGS also must abide by the following conditions of the recognition:

1. SGS must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as an NRTL, and provide details of the change(s);
2. SGS must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. SGS must continue to meet the requirements for recognition in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the recognition of SGS, subject to the limitation and conditions specified in this section.
