

the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that under FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets.

The Forest Service will inform the requester of the Agency's decision regarding the request for confidentiality and if the requester is denied, the Agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within 90 days.

Release and Review of the DEIS: The DEISs are expected to be filed with the Environmental Protection Agency (EPA) and to be available for public comment in 2005. At that time, the EPA will publish a Notice of Availability in the **Federal Register**. The comment period on the DEIS will be 90 days from the date the EPA publishes the Notice of Availability in the **Federal Register**.

The Forest Service believes it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of DEISs must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions [*Vermont Yankee Nuclear Power Corp. v. NRDS*, 435 U.S. 519, 553 (1978)]. Also, environmental objections that could be raised at the DEIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts [*City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980)]. Because of these court rulings it is very important that those interested in this proposed action participate by the close of the 90-day comment period so substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the DEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the DEIS. Comments may also address the adequacy of the DEIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council of Environmental Quality Regulations (<http://ceq.eh.doe.gov/nepa/nepanet.htm>) for implementing the procedural provision of the National

Environmental Policy Act at 40 CFR 1503.3 in addressing these points.
