

air traffic service routes, and reporting points.

The Rule

The FAA is amending 14 CFR part 71 by modifying Class E airspace extending upward from 700 feet above the surface at Bear Lake County Airport, Paris, ID. The area east of the airport is being reduced from 15.3 miles wide (from east to west), and 28.1 miles tall (from north to south) to 2 miles each side of the 115° bearing from the airport from the 6.6-mile radius to 11 miles southeast from the airport, and the trapezoidal area west of the airport extending approximately 10.5 miles wide (from east to west) and 33.8 miles tall (from north to south) is being reduced to 2 miles each side of the airport 315° bearing extending from the 6.6-mile radius to 17 miles northwest from the airport, as the additional airspace is no longer required for operations.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order (E.O.) 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
