## DEPARTMENT OF HOMELAND SECURITY

### Federal Emergency Management Agency

[Docket ID FEMA–2024–0002; Internal Agency Docket No. FEMA–B–2478]

### Proposed Flood Hazard Determinations

**AGENCY:** Federal Emergency Management Agency, Department of Homeland Security.

**ACTION:** Notice.

**SUMMARY:** Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** Comments are to be submitted on or before March 13, 2025.

**ADDRESSES:** The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective

Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA–B–2478, to Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) [patrick.sacbibit@fema.dhs.gov](mailto:patrick.sacbibit@fema.dhs.gov).

**FOR FURTHER INFORMATION CONTACT:** Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) [patrick.sacbibit@fema.dhs.gov](mailto:patrick.sacbibit@fema.dhs.gov); or visit the FEMA Mapping and Insurance eXchange (FMIX) online at [https://www.floodmaps.fema.gov/fhm/fmx\\_main.html](https://www.floodmaps.fema.gov/fhm/fmx_main.html).

**SUPPLEMENTARY INFORMATION:** FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the

revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at [https://www.floodsrp.org/pdfs/srp\\_overview.pdf](https://www.floodsrp.org/pdfs/srp_overview.pdf).

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

BILLING CODE 9110-12-P

**DEPARTMENT OF THE INTERIOR****Fish and Wildlife Service**[Docket No. FWS-R8-ES-2024-0125;  
FXES11140800000-189-FF08ESMF00]

**Endangered and Threatened Species;  
Receipt of Amended Incidental Take  
Permit Application and Amended  
Habitat Conservation Plan for the  
Proposed Rooney Ranch Wind  
Repowering Project, Alameda County,  
CA; Draft Environmental Assessment**

**AGENCY:** Fish and Wildlife Service,  
Interior.

**ACTION:** Notice of availability; request  
for comments.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), have received an application for an amended incidental take permit under the Endangered Species Act (ESA) to conduct activities with the potential for take of endangered and threatened species that is incidental to, and not the purpose of, carrying out otherwise lawful activities. We invite comments on the applicant's amended permit application and amended habitat conservation plan (HCP), and the associated environmental assessment, which we have prepared pursuant to the National Environmental Policy Act. The amended incidental take permit (ITP) is necessary due to an increase in the project's temporary and permanent impacts and a new applicant for the ITP. In addition, the new applicant would like to add two additional species that have been proposed for Federal listing and request "take" coverage should the species become listed. We invite the public and local, State, Tribal, and Federal agencies to comment on the documents. Before issuing the requested permit, we will take into consideration all comments received.

**DATES:** To ensure consideration, please send your written comments by January 13, 2025.

**ADDRESSES:***Obtaining Documents:*

• *Electronic copies:* The documents this notice announces, as well as any

comments and other materials that we receive, will be available for public inspection online in Docket No. FWS-R8-ES-2024-0125 at <https://www.regulations.gov>.

You may also obtain electronic copies of the draft amended Rooney Ranch Wind Repowering Project Habitat Conservation Plan (draft HCP) and draft amended environmental assessment (EA) from the Sacramento Fish and Wildlife Office website at <https://www.fws.gov/office/sacramento-fish-and-wildlife>. (See **FOR FURTHER INFORMATION CONTACT.**)

*Submitting Comments:* You may submit comments by one of the following methods:

- *internet:* <https://www.regulations.gov>.

Follow the instructions for submitting comments under Docket No. FWS-R8-ES-2024-0125.

- *U.S. mail:* Public Comments

Processing, Attn: Docket No. FWS-R8-ES-2024-0125; U.S. Fish and Wildlife Service; 5275 Leesburg Pike, MS: PRB/3W; Falls Church, VA 22041-3803

We request that you send comments by only the methods described above.

For more information, see Public Comment Procedures under **SUPPLEMENTARY INFORMATION.**

**FOR FURTHER INFORMATION CONTACT:**

Jason Hanni, Fish and Wildlife Biologist, Sacramento Fish and Wildlife Office (see **ADDRESSES**), 916-414-6600 (telephone). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service, have prepared an environmental assessment under the National Environmental Policy Act (NEPA) for the proposed Rooney Ranch Wind Repowering Project in response to an application from Viracocha Wind, LLC (applicant) for a 36-year amended incidental take permit for three species under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and two additional species that have been

proposed for Federal listing. This amended ITP is an update to the previously issued ITP for the project. (For more about that process, see our notice of May 28, 2020 (85 FR 32044).) Changes to the project's anticipated disturbance acreage, inclusion of the additional two species, and the change of applicant necessitate the amended ITP. The application addresses the potential for "take" of the following three federally listed animals: the Central California distinct population segment of the California tiger salamander (*Ambystoma californiense*) (central CTS), the California red-legged frog (*Rana draytonii*), and the San Joaquin kit fox (*Vulpes macrotis mutica*). The application also addresses the potential for "take" of the following two animals proposed for Federal listing: northwestern pond turtle (*Actinemys marmorata*) and western spadefoot (*Spea hammondi*), a frog species. The applicant would implement a conservation program to minimize and mitigate the project impacts, as described in the applicant's amended habitat conservation plan (HCP). We invite comments on the applicant's permit application, amended HCP, and the associated amended EA, which we have prepared pursuant to the National Environmental Policy Act of 1969, as amended (NEPA; 42 U.S.C. 4321 *et seq.*), and its implementing regulations in the Code of Federal Regulations (CFR) at 40 CFR 1506.6. We will take comments into consideration before issuance of the requested permit.

The applicant has submitted a draft amended HCP as part of the application for an ITP under section 10(a)(1)(B) of the ESA. The draft amended HCP includes measures necessary to minimize and mitigate the impacts, to the maximum extent practicable, of potential taking of federally listed species to be covered by the amended HCP, and the habitats upon which they depend, resulting from construction and operation of the proposed Rooney Ranch Wind Repowering Project within the project area, to include portions of the Altamont Pass Wind Resource Area (APWRA) in Alameda County, California.

**Background Information**

Section 9 of the ESA prohibits the take of fish or wildlife species listed as
