SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Climate Transformation Task Force (CTTF) Evaluation at the Military Service Academies submitted under “DoD-wide Data Collection and Analysis for the Department of Defense Qualitative and Quantitative Data Collection in Support of the Independent Review Commission on Sexual Assault Recommendations,” OMB Control Number: 0704–0644.

Type of Request: New.

Number of Respondents: 936.

Responses per Respondent: 1.

Annual Responses: 936.

Average Burden per Response: 52.2 minutes.

Annual Burden Hours: 814.32.

Needs and Uses: The Independent Review Commission on Sexual Assault in the Military (IRC–SAM) recommended that the Department develop a “state-of-the-art DoD prevention research capability” to better understand and develop prevention approaches for sexual assault, and other crimes. In 2023, United States Military Academy (USMA), United States Naval Academy (USNA), and United States Air Force Academy (USFA) were directed to develop Plans of Action and Milestones (POAMs) related to the prevention of sexual assault and other harmful behaviors. This information collection requirement is necessary to understand the impact of the Military Service Academies’ (MSAs) POAMs on creating and maintaining a climate to develop leaders of characters that are mission ready. This data collection includes TAC officer/AOC/Company Officer/NCOs that oversee cadets and midshipmen via a survey, faculty, staff, alumni, and parents (of current students) via focus groups. This information will help support the development of evidence-based approaches for prevention.

Affected Public: Individuals or households.

Frequency: Once.
