The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern Time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: January 15, 2020.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

[Docket No. RM19–12–000]

Revisions to the Filing Process for Commission Forms; Notice of Extension of Time and Rescheduling of Technical Conference

On December 16, 2019, a notice was issued announcing a staff-led technical conference to be held from February 4 through February 6, 2020, to discuss the draft FERC XBRL Taxonomy and filing processes for implementing the XBRL data standard, pursuant to Order No. 859.¹ The notice also established a comment period, until January 17, 2020, for parties to comment on the draft FERC XBRL Taxonomy using the Yeti review tool or file written comments on issues related to the draft taxonomy or related draft implementation documents.

On December 20, 2019, the American Public Power Association, the American Gas Association, the Edison Electric Institute, and the National Rural Electric Cooperative Association (collectively, the Joint Associations) filed a motion requesting a 60-day extension of time to submit comments. Joint Associations state that an extension of time is necessary to prepare comments that will meaningfully inform Commission staff's development of a revised draft FERC XBRL taxonomy because part of the comment period includes the federal holidays, many of the employees who would prepare the comments will be preparing Securities and Exchange Commission filings due in February, and some of the information on which the Commission seeks comment will not have been made available for an adequate time to review.

Upon consideration, notice is hereby given that the date for comments on the draft FERC XBRL Taxonomy or related draft documents in the above-captioned proceeding is extended by 45 days, up to and including March 2, 2020.

The date for the technical conference in this proceeding also is rescheduled to March 24 through March 26, 2020.

¹ *Revisions to the Filing Process for Commission Forms*, 167 FERC 61,241 (2019).

Dated: January 13, 2020.

Kimberly D. Bose,
Secretary.

Federal Energy Regulatory Commission

[Docket No. CP20–36–000]

Rover Pipeline LLC; Notice of Application

Take notice that on January 9, 2020, Rover Pipeline LLC (Rover), 1300 Main Street, Houston, Texas 77002, filed in the above referenced docket an application pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations for authorization to increase the certificated mainline capacity on its pipeline system by 175 million cubic feet per day. Rover asserts that the proposed increase in certificated capacity to 3.425 billion cubic feet per day is supported by analysis of actual pipeline operating flow and pressure conditions. Rover states that there will be no construction or modifications to its existing facilities or services as part of this proposal, all as more fully described in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208–3676 or TTY, (202) 502–8659.

Any questions regarding this application should be directed to Blair Lichtenwalter, Senior Director, Regulatory Affairs, Rover Pipeline LLC, 1300 Main Street, Houston, Texas 77002, at (713) 989–2605.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS)

or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 3 copies of filings made in the proceeding with the Commission and must provide a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list and will be notified of any meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters

will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

As of the February 27, 2018 date of the Commission's order in Docket No. CP16–4–001, the Commission will apply its revised practice concerning out-of-time motions to intervene in any new NGA section 3 or section 7 proceeding.¹ Persons desiring to become a party to a certificate proceeding are to intervene in a timely manner. If seeking to intervene out-of-time, the movant is required to "show good cause why the time limitation should be waived," and should provide justification by reference to factors set forth in Rule 214(d)(1) of the Commission's Rules and Regulations.²

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 3 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on February 3, 2020.

Dated: January 13, 2020.
