

consistent and timely federal input that will allow EPA, states, tribes, and the public to gauge whether pesticides represent a concern for aquatic life, for example, based on water monitoring results. To address these concerns, the Agency has begun a process to explore how to build on the high quality science in both OW and OPP to develop additional tools and approaches to support consistent and common effects characterizations using the best available information. If successful, this common tiered effects characterization methodology and resultant advisory values would allow Federal and State risk managers to make environmentally protective and scientifically defensible, timely decisions about chemicals that may be found in ambient water in a consistent manner while meeting the mandates of both CWA and FIFRA.

A scoping document was published in April 2009, http://www.epa.gov/oppefed1/cwa_fifra_effects_methodology/scope.html that described this effort in more detail and invited public participation in our collective efforts. Following through on this invitation, 6 regional stakeholders meetings were held in January 2010. The feedback received from stakeholders assisted EPA in crafting three draft white papers. Now, a national stakeholders meeting is being planned for October 29, 2010 to solicit input on the Agency's draft white papers that address the following topics:

- (1) The use of various tools to estimate aquatic toxicity data;
- (2) approaches for deriving community level benchmarks; and
- (3) procedures for better integrating plant effects data into community level assessments.

These white papers also describe how the potential new tools, methods, and analytical approaches that may be used by the Agency, state pesticide and water quality agencies, and other stakeholders to gauge whether pesticides represent a concern for aquatic life. Following this meeting, the Agency plans to revise the white papers, based on public comments and feedback from the stakeholders. The white papers will then be reviewed by EPA's Science Advisory Board in summer 2011.

For more information about the OPP Ecological Exposure Assessment Process under FIFRA, refer to the following: *Overview of the Ecological Risk Assessment Process in the Office of Pesticide Programs*, which describes how pesticide data are used in ecological risk assessments (<http://www.epa.gov/oppefed1/endanger/consultation/ecorisk-overview.pdf>). The data requirements for aquatic non-target plants and animals for pesticides are described in title 40 of the Code of Federal Regulations, revised July 1, 2008 (158.660 Non-target Plant Protection Data Requirements). The required procedures for conducting the studies are described in *OPPTS Harmonized Test Guidelines. Series 850 Ecological Effects Test Guidelines—Public Drafts* (http://www.epa.gov/opptsfrs/publications/OPPTS_Harmonized/850_Ecological_Effects_Test_Guidelines/Drafts/). Information on procedures used to evaluate these studies are described in: Standard Evaluation Protocols, the guidance document entitled the *Rejection Rate Analysis: Ecological Effects* (EPA 738-R-94-035), and in the OPP Overview Document. Public literature is accessed by OPP through EPA's ECOTOX database (<http://cfpub.epa.gov/ecotox/>). The "OPP Aquatic Benchmarks," a Web site developed by OPP, contains the aquatic toxicity endpoints used in pesticide assessments (http://www.epa.gov/oppefed1/ecorisk_ders/aquatic_life_benchmarks.htm).

III. What type of comments does EPA want to receive?

EPA would like the public to comment on the following:

1. The data, tools, and methods presented in the white papers;

2. Alternate tools or methods that EPA should consider for extrapolating or estimating aquatic toxicity data;

3. Alternate methods EPA should consider for developing community level benchmarks or aquatic life screening values when minimum data requirements for national recommended aquatic life criteria are not met;

4. The types of values that are used by states and/or regions for protecting aquatic life in the absence of ambient water quality criteria; and

5. Approaches to establishing plant-based criteria, or methods to better incorporate plant effects data in community level benchmarks.

DATES: November 4, 2010.

ADDRESSES: Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Walter Johnston, Chief, Electromagnetic Compatibility Division, 202-418-0807; Walter.Johnston@FCC.gov.

SUPPLEMENTARY INFORMATION: At this meeting, the overall objectives of the Technological Advisory Council (TAC) will be described and discussion on the working methods of the TAC will be held. The FCC will attempt to

accommodate as many people as possible. However, admittance will be limited to seating availability. Meetings are also broadcast live with open captioning over the internet from the FCC Live Web page at <http://www.fcc.gov/live/>. The public may submit written comments before the meeting to: Walter Johnston, the FCC's Designated Federal Officer for Technological Advisory Council by e-mail: Walter.Johnston@fcc.gov or U.S. Postal Service Mail (Walter Johnston, Federal Communications Commission, Room 2-A665, 445 12th Street, SW., Washington, DC 20554). Open captioning will be provided for this event. Other reasonable accommodations for people with disabilities are available upon request. Requests for such accommodations should be submitted via e-mail to fcc504@fcc.gov or by calling the Office of Engineering and Technology at 202-418-2470 (voice), (202) 418-1944 (fax). Such requests should include a detailed description of the accommodation needed. In addition, please include your contact information. Please allow at least five days advance notice; last minute requests will be accepted, but may be impossible to fill.

Exceptional Circumstances (notice): The notice of this meeting is being published on less than 15 days notice due to exceptional circumstances. It is critical that the TAC conduct this meeting to organize itself and its subgroups as soon as possible in order to develop recommendations regarding 4G and other broadband technologies that will be deployed beginning next year, as well as developing recommendations more generally for job creation in the broadband sector. However, the only date this year that all TAC members could attend, and at which sufficient meeting space is available at the agency, is November 4th. Failure to meet on this date would push this important meeting back into 2011 and jeopardize the ability of the TAC to fulfill its mission within the time frame sought by the Commission. Recognizing the late **Federal Register** publication, the agency also issued a Public Notice of this meeting on Monday, October 25th, in an effort to mitigate the late **Federal Register** publication and as an additional way of advising the public of this meeting and their right to attend.

Federal Communications Commission

Julius P. Knapp,

Chief, Office of Engineering and Technology.
