

Afton, WY. This was necessary to provide an increased level of safety for aircraft executing IFR operations between the terminal and en route phase of flight at Afton Municipal Airport, Afton, WY. Interested parties were invited to participate in this rule making proceeding by submitting written comments on the proposal. No comments were received.

The Rule

This amendment to 14 CFR part 71, establishes Class E5 airspace at Afton, WY. Class E airspace is necessary to provide adequate controlled airspace for IFR operations at Afton Municipal Airport. The FAA establishes Class E airspace where necessary to contain IFR aircraft transitioning between the terminal and en route environments. By this action, the FAA intends to provide for the safe and efficient use of the navigable airspace, and to promote safe flight operations under IFR conditions at the Afton Municipal Airport, Afton, WY.

The new Class E5 airspace will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. Class E5 airspace areas extending upward from 700 feet above the surface of the earth, are published in Paragraph 6005, of FAA Order 7400.9K dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR 71.1. The Class E5 airspace designation listed in this document will be published subsequently in the Order. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation, Incorporated by reference, navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS [AMENDED]

■ The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 14 CFR 11.69.

§ 71.1 [Amended]

The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9K, Airspace Designations and Reporting Points, dated August 30, 2002, and effective September 16, 2002, is amended as follows:

Paragraph 6005 Class E5 airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ANM UT E5 Afton, WY [New]

Afton Municipal Airport, WY
(Lat. 42°42'41" N., long. 110°56'32" W.)

That airspace extending upward from 700 feet above the surface of the earth within a 6.5 mile radius of the Afton Municipal Airport, and within 2 miles either side of the 341° (355° True) bearing from the airport extending from the 6.5 mile radius to 7.5 miles north of the airport, and within 2 miles either side of the 171° (185° True) bearing from the airport extending from the 6.5 mile radius to 19.3 miles south of the airport.

Issued in Seattle, Washington on July 17, 2003.

ViAnne Fowler,

Acting Assistant Manager, Air Traffic Division, Northwest Mountain Region.

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2003–15461; Airspace Docket No. 03–ACE–59]

Modifications of Class E Airspace; Beatrice, NE

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: An examination of controlled airspace for Beatrice, NE indicates it

does not comply with criteria set forth in FAA Orders. A discrepancy in the location of the Shaw nondirectional radio beacon (NDB), used in the legal description for the Beatrice, NE Class E airspace, was also detected. This action corrects the discrepancies by modifying the Beatrice, NE Class E airspace and by incorporating the location of the Shaw NDB in the Class E airspace legal description.

DATES: This direct final rule is effective on 0901 UTC, October 30, 2003.

Comments for inclusion in the Rules Docket must be received on or before September 4, 2003.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590–0001. You must identify the Docket number FAA–2003–15461/ Airspace Docket No. 03–ACE–59, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1–800–647–5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

FOR FURTHER INFORMATION CONTACT: Brenda Mumper, Air Traffic Division, Airspace Branch, ACE–520A, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329–2524.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 modifies the Class E airspace area extending upward from 700 feet above the surface at Beatrice, NE. It expands the south extension of this airspace area an additional 2.4 miles to provide appropriate controlled airspace for aircraft executing the NDB–A Standard Instrument Approach Procedure (SIAP) to Beatrice Municipal Airport. It modifies the northwest extension of this airspace area by defining it with the Beatrice very high frequency omnidirectional radio range (VOR) 320° radial versus the current 325° radial. It incorporates the current location of the Shaw NDB and brings the legal description of this airspace area into compliance with FAA Order 7400.2E, Procedures for Handling Airspace Matters. The area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the

earth are published in paragraph 6005 of FAA Order 7400.9K, dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the dates specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2003-15461/Airspace Docket No. 03-ACE-59." The postcard will be date/time stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between

the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ Accordingly, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9K, dated August 30, 2002, and effective September 16, 2002, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ACE NE E5 Beatrice, NE

Beatrice Municipal Airport, NE
(Lat. 40°18'05" N., long. 96°45'15" W.)
Beatrice VOR
(Lat. 40°18'05" N., long. 96°45'17" W.)
Shaw NDB
(Lat. 40°15'54" N., long. 96°45'25" W.)

That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of Beatrice Municipal Airport and within 4.4 miles each side of the Beatrice VOR 320° radial extending from the 6.6-mile

radius of the airport to 7 miles northwest of the VOR and within 3.1 miles each side of the 185° bearing from the Shaw NDB extending from the 6.6-mile radius of the airport to 7 miles south of Shaw NDB.

Issued in Kansas City, MO, on July 21, 2003.

Herman J. Lyons, Jr.,

Manager, Air Traffic Division, Central Region.

Adoption of Updated EDGAR Filer Manual

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Securities and Exchange Commission (the Commission) is adopting revisions to the EDGAR Filer Manual to reflect updates to the EDGAR system made primarily to improve the functionality of the SEC's Online Forms website. The website is currently used for preparing and submitting ownership reports, Forms 3, 4, 5 and their amendments, Forms 3/A, 4/A and 5/A, required under section 16(a) of the Securities Exchange Act of 1934, generally as required by section 403 of the Sarbanes-Oxley Act of 2002. Some of the improved functionality includes the ability to list holdings of securities separately from securities transactions; facilitating the reporting of gift, phantom stock plan and similar transactions; automatic entry of the filer's address by the system based on the filer's CIK number and the ability to change the address for the filing¹; and XML schema and stylesheet updates to support these changes. In addition, the new release will include support for extended EDGAR filing and dissemination to 6 a.m., as a trial to assess its usefulness to filers; same day acceptance and dissemination of Form 3, 4 and 5 filings and Securities Act of 1933, Rule 462(b) filings, MEF form types, received on business days on or

¹ Changes of address will be effective for that filing only. EDGAR filers are reminded of their responsibility to ensure that their address of record, as reflected in the EDGAR database, is kept current. This can be done by selecting the Information Exchange—Retrieve/Edit Data option from the EDGAR OnlineForms Website.
